Safety data sheet according to 1907/2006/EC, Article 31

Printing date 24.02.2017

Version number 5

Revision: 24.02.2017

SECTION 1: Identification of the substance/mixture and of the company/ undertaking · 1.1 Product identifier · Trade name: Epifanes Rapidclear · 1.2 Relevant identified uses of the substance or mixture and uses advised against Product category PC9a Coatings and paints, thinners, paint removers · Process category PROC10 Roller application or brushing · Environmental release category ERC2 Formulation into mixture · Application of the substance / the mixture See our technical datasheet for application of this product.  $\cdot$  1.3 Details of the supplier of the safety data sheet • Manufacturer/Supplier: W.Heeren & Zoon bv. P.O. box 166 1430 AD Aalsmeer Netherlands tel.+31-(0)297-360366 fax +31-(0)297-342078 email: r&d@epifanes.nl · Further information obtainable from: Research & Development. 1.4 Emergency telephone number: W.Heeren & Zoon bv. tel: +31 297 360678, E-mail: rend@epifanes.nl Office hours: weekdays from 08:00 to 17:00. The National Poisons Information Service; dial 111 Solely intended to inform professionals in acute poisoning! Zie rubriek Fabrikant/leverancier SECTION 2: Hazards identification · 2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008 GHS02 flame Flam. Liq. 3 H226 Flammable liquid and vapour. · 2.2 Label elements · Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the CLP regulation. Hazard pictograms GHS02 Signal word Warning Hazard statements H226 Flammable liquid and vapour. · Precautionary statements P102 Keep out of reach of children. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P260 Do not breathe dust/fume/gas/mist/vapours/spray. P271 Use only outdoors or in a well-ventilated area. P280 Wear protective gloves/protective clothing/eye protection/face protection.

Printing date 24.02.2017

Version number 5

Revision: 24.02.2017

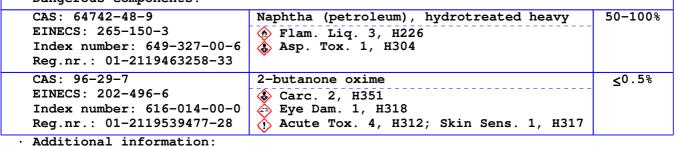

Trade name: Epifanes Rapidclear

- · PBT: Not applicable.
- · vPvB: Not applicable.
  - SECTION 3: Composition/information on ingredients

3.2 Chemical characterisation: Mixtures
 Description:

Resin mixture Solvent mixture with additives

· Dangerous components:

Note P: The substance does not have to be classified as a carcinogen or mutagen as can be shown that the substance contains less than 0.1% (w / w) benzene (EINECS No 200-753-7.). This note applies only to certain complex oil-derived substances in Part 3.

For the wording of the listed hazard phrases refer to section 16.

#### SECTION 4: First aid measures

4.1 Description of first aid measures
General information: Immediately remove any clothing soiled by the product.
After inhalation: Supply fresh air; consult doctor in case of complaints.
After skin contact: Immediately rinse with water.
After eye contact: Rinse opened eye for several minutes under running water.
After swallowing: Seek medical treatment.
4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

(Contd. of page 2)

#### **SECTION 5: Firefighting measures**

5.1 Extinguishing media

- · Suitable extinguishing agents:
- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- · For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2 Special hazards arising from the substance or mixture
- During heating or in case of fire poisonous gases are produced.
- 5.3 Advice for firefighters

· Protective equipment: Mouth respiratory protective device.

#### SECTION 6: Accidental release measures

· 6.1 Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation Mount respiratory protective device. Wear protective equipment. Keep unprotected persons away. · 6.2 Environmental precautions: Prevent seepage into sewage system, workpits and cellars. Do not allow to enter sewers/ surface or ground water. · 6.3 Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13. Ensure adequate ventilation. · 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

# SECTION 7: Handling and storage

- 7.1 Precautions for safe handling Work only in fume cupboard. Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols.
  Information about fire - and explosion protection:
- Keep ignition sources away Do not smoke. Protect against electrostatic charges. Keep respiratory protective device available.
- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles: No special requirements.
- $\cdot$  Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep container tightly sealed.
- 7.3 Specific end use(s) No further relevant information available.

#### SECTION 8: Exposure controls/personal protection

• Additional information about design of technical facilities: No further data; see item 7.

(Contd. of page 3) 8.1 Control parameters Ingredients with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. 64742-48-9 Naphtha (petroleum), hydrotreated heavy Long-term - systemic effects, 300 mg/kg bw/day (Werker/Worker) Dermal worker 1500 mg/m<sup>3</sup> (Werker/Worker) Inhalative Long-term - systemic effects, worker 96-29-7 2-butanone oxime Inhalative Acute - systemic effects, 320-1000 mg/m<sup>3</sup> (Fish Acute worker Toxicity Study) Additional information: The lists valid during the making were used as basis. · 8.2 Exposure controls · Personal protective equipment: · General protective and hygienic measures: Do not eat, drink, smoke or sniff while working. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Respiratory protection: In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device. Filter AX Protection of hands: Protective gloves The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Penetration time of glove material The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. · For the permanent contact gloves made of the following materials are suitable: nitrile rubber; recommended glove thickness> 0.45mm. permeability / permeation time:> 480 min. according to EN 374. · As protection from splashes gloves made of the following materials are suitable: Cloropene; handglove thickness >0.7mm, penetration time >60min. according EN374. Nitrilrubber; handglove thickness >0.3mm, penetration time >60min. according
