

# ACCESS EQUIPMENT

## ZARGES INDUSTRIAL 3 PART SKYMASTERS

Probably the only ladder you'll ever need!

**Zarges Industrial 3 Part Skymasters** The Zarges Industrial Skymaster Ladder is the standard ladder equipment for the performance venue. It is immensely versatile, you can use it as a three-part extension ladder, stepladder, free standing two-part extension ladder or stair way trestle, etc. It's ideal for getting to studio grids, awkward lighting positions, over seating, up the back of scenery etc. It's also a great tool for the maintenance engineer, for corridor and stairwell lighting, difficult to reach windows and plant.

The Skymaster comes in four sizes: 8, 10, 12 and 14 rung three-part ladders. There is a 6 and 7 rung version available as a Trade Skymaster - see [3.77](#). The industrial versions are fitted with twin locking bars and wheels on the top section. Each ladder comes with a stabiliser bar and locking clips, which lock the ladder in the closed position for ease of transportation. EN131 approved to 150kg and BGV D 36. Flints prices are well below list prices. See also page 3.68 for accessories including raked stage adapters. Delivery prices UK mainland £15.00 [3 day] £25.00 [next day] £35.00 [am].

### Falls from Height

The latest figures from the Health and Safety Executive show that 45 people died from a fall from height at work in 2006/7. This figure is a record low but falls from height are still the most common kind of accident causing fatal injuries.

Falls from ladders resulted in 12 deaths and 1050 major injuries. Please take care and follow the Top Ladder Safety Tips below

## ZARGES TRADE 3 PART SKYMASTERS

From under £200.00!

### Zarges Trade 3 Part Skymasters

The Zarges Trade Skymaster has all the versatility of Industrial version but without wheels on the top section and with just one locking bar. They represent great value for Zarges quality. Trade Skymasters also come in 6 and 7 rung sizes - ideal for studio use. EN131 approved to 150kg. Delivery prices: UK mainland £15.00 [3 day] £25.00 [next day] £35.00 [am].

### Top Ladder Safety Tips

- ✓ Daily pre-use check - feet included. Do not use damaged ladders.
- ✓ Lean ladders at the correct angle: 1 out and 4 up.
- ✓ Maximum permissible load 150kgs.
- ✓ Check restraint straps are tensioned and locking bars are in place.
- ✓ Lean-to ladders must end 1m above level of access.
- ✓ On multi part ladders use the rung lock devices.
- ✓ Never erect on slippery ground.
- ✓ Do not lean to the side when working from a ladder. Ensure your belt buckle [navel] stays within the stiles and keep both your feet on the same rung.
- ✓ Do not lean against an unsafe bearing point.
- ✓ Do not stand beyond the fifth rung from the top on multi purpose ladders or the fourth rung on lean-to ladders.
- ✓ Do not climb from step ladders to a higher level of access.
- ✓ Short duration work [maximum 30 minutes].
- ✓ Light work [maximum 10 kgs].
- ✓ Keep three points of body contact always on the ladder.
- ✓ Always secure your tools with a lanyard [see page 3.40].

## SKYMASTER PLATFORM ACCESSORY

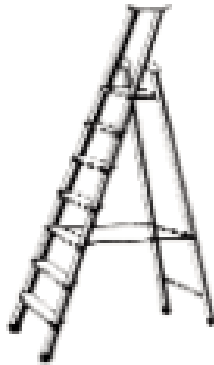

### Skymaster Platform

Available as an optional extra is the Skymaster platform, enabling you to use your Skymaster ladder as a work platform. Not available to hire. Maximum platform height=1m. 1500mm long x 420mm

### About Zarges

Zarges are the largest manufacturer of access equipment in Europe. They have gained their position through stringent design quality standards and manufacturing control processes. We believe that they are the best ladders available. Zarges ladders have a 10 year Guarantee.

## HOP UPS

Great for trade show displays

### Hop-up Work Platform

A lightweight but durable platform made from aluminium with steel locking hinges. Compact and easy to store when closed. 150kg load capacity. 600x300x480mm high. Wt 4.65kg.

Hop-up	code	price
	ZAR100302	£42.00

## SHERPASCOPIC

Safe sites specify the SHERPASCOPIC

**Sherpasopic**  
In accordance with the **Work at Height Regulations 2005**

A very stable design, preventing toppling from front, rear and sides. Stabiliser bar can be used to one side only when working against a wall. Height adjustable platform. This is probably the safest choice of ladder possible. Working

heights are generally considered to be 2m above platform height. NF P 93-352 Certified. Delivery prices: UK mainland £15.00 [3 day] £25.00 [next day] £35.00 [am].

## TELESCOPIC LADDERS

3.68

**Telesteps** The worlds first telescopic ladder. It has collected 10 international awards. Just 780mm when closed but stretching to 3.3m when extended. This ladder will fit easily in the boot of the car. It is also very portable making it a good choice for tight spaces. A great choice for freelance workers who need to travel to their work. It even has a smart nylon carry bag with shoulder strap as an optional extra. Weight 10.4kg. EN131 150kg rating.

Telesteps 61121	code	list price	our price
	ZARTS61121	£344.00	£229.28
Bag	ZARTSB9129		£47.00

## FREEHAND LADDER PAINTING ACCESSORIES

new

**System FREEHAND** - simply designed to make your life easier and undoubtedly much safer. FREEHAND is a brand new approach to decorating practices - locating your paint where you actually need it. Now\* you can work more comfortably, avoiding paint spills and dangerous situations. \*Due summer 2009

**Maxi and Mini Rolla-Coatas** These sturdy paint scuttles can be carried around without any danger of spillage. The vertical roller ramp is a separate insert which cleverly forms two paintbrush holders at each side of the scuttle - no more climbing down those steps before cutting-in! The Rolla Coatas will clip onto the Mount-E or Holsta so it is exactly where you need it!

The **Mount-E** is undoubtedly a totally new look at the way you can place your tools in close proximity to the workplace. This cleverly designed bracket simply clips itself to so many objects - ladders, doors, trestles, tables and scaffolding.

**The Holsta** and its patented dovetail interface, forms the backbone of the FREEHAND system. Simply slide the FREEHAND accessory into the holsta and it automatically locks into position, ensuring that it can't be accidentally unclipped whilst manoeuvring.

**The Uni2** kit has two inserts - a simple hook that can be slipped into either the holsta or the mount-E. You can attach your own paint kettle, carry a paint can up ladders, or attach a host of different tools. The can-grip insert straps directly on to a paint can. Again fix this assembly to either the holsta or the mount-E.

## LADDER ACCESSORIES

Stabiliser Bar extension for rakes

Ladder Platform

Paint Tray

Bucket Hook

**Stabiliser Bar Extension for Rakes** For ladders with horizontal stabiliser bars such as the Skymaster. Continuous maximum adjustment 375mm. Easy to fit. Ideal for working on raked stages.

**Ladder Platform.** For comfortable working, helps prevent fatigue over long periods.

**Ladder Paint Tray.** Holds paint pots etc ready for use.

**Bucket Hook.** Slides inside the rung to leave a handy hook.

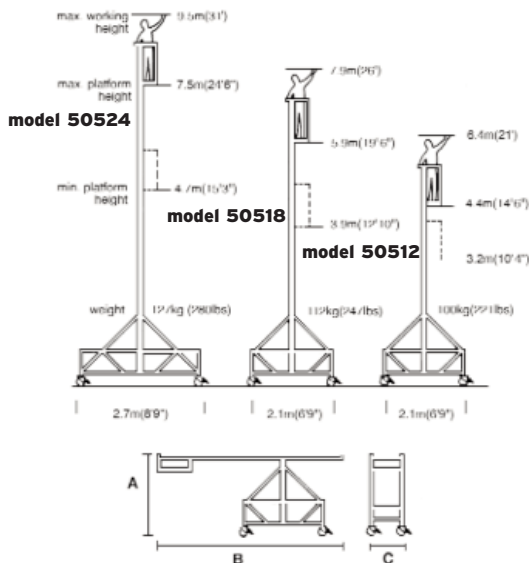

**Stile Extension.** Evens up height differences on stairs and steps.

## TALLESCOPES

**HIRE**

The standard access tool for the entertainment industry, the Tallescope gives you easy access to work on rigging, electrics sound and draperies etc. This compact and manoeuvrable all aluminium work platform allows access to working heights up to 9.5m [31']. The two-part ladder section is operated by a simple rope pulling line, allowing rung by rung height adjustment. The ladder section pivots over to allow the unit to pass through a single standard doorway for low level storage. Three standard models are available. Always use the stabilisers. The Tallescope is not designed to be moved while someone is in the basket. The ABTT draft document "The selection and use of Access Equipment for Work at Height in Theatres" covers the subject in some detail. Please note that the delivery charge involves shipping from Ireland. The 50518 model is available to hire - see page 3.77

## FLEXIBLE LADDERS

**Fibrelight Ladders** A black polyester webbing ladder with carbon fibre rungs providing a silent ladder suitable for occasional use. Supplied complete with bag and connector.

Fibrelight ladders	code	each
5m	LSFL05N	£98.43
10m	LSFL10N	£165.43
15m	LSFL15N	£235.18
20m	LSFL20N	£304.05

**Flexible Ladders** These can be useful for access to front of house trusses but should never be used without back up fall arrest equipment [see page 3.37]. We suggest using the 6" wide version with 10" rung spacings which are considered the easiest to climb. The 4mm wire ends have a tested quick link termination which enables ladders to be joined with standard rung spacing. Also available with black rungs POA.

Flexible Ladders	code	price
5m ladder 250mm rung spacing	PETLM40525	£74.39
10m ladder 250mm rung spacing	PETLM41025	£139.94
Spare pair of Maillon Rapides	PETLNZ06	£2.66
