All our tapes are chosen on the basis of quality and reliability. We refuse to accept inferior cheaper options.

GAFFER TAPES

Gaffer Tape Flints stock a consistently high quality gaffer tape in black, white or silver. We can supply, to order, a wide range of sizes in different colours e.g. red, blue, yellow, brown and green. We offer a substantial discount on a box of 2" gaffer tape. Order your gaffer tape from Flints and we promise not to phone every week asking if you need more, unlike some firms who shall remain nameless.

3M Blue Longlife Masking Tape You have to think twice before spending £4.20 on a roll of masking tape but this really is a very superior product. It is easily removable from most surfaces without leaving any residue even after a week. It gives a crisp edge without any paint creep. The adhesive is sufficiently strong to adhere well to door handles and awkward fittings. Use it on those special jobs such as masking woodgraining and varnish work. Out performs all other tapes I have tried.

Mask It is a very low tack saturated paper which is 4ft wide. It should not damage existing wallpaper or paint and Mask It can be painted! Perfect for location work, just cover the existing wall coverings with Mask It and paint it whatever colour suits your shot. It will wrinkle when wet but soon dries out flat. After the filming is complete just peel it off to reveal the old wallpaper. Also useful for stencilling and general masking. Try a sample first and avoid using on flaking or poor surfaces.

One Wrap One wrap is a black double sided hook and loop fastener. The hooks are on one side and the loops are on the other. Just wrap it around and it will secure to itself! It allows the tape to be used as a replacement to cable ties or as a tidy for hemp lines, extension leads or airlines. It leaves no sticky mess associated with adhesive tapes and no sharp edges like those on nylon cable ties. It is surprisingly strong yet easy to release. A roll of this on tour will keep everything neat and tidy.
