FESTOOL SYSTAINER SYSTEM

Systainer System

Festool Tools are normally supplied in a Systainer box. The ingenious system allows boxes to lock together or lock to a rolling base board. With the T-LOC system just one turn will lock, open and connect the boxes. The new system is fully compatible with the old system. You can, for instance, buy a sander, a Midi dust extractor, and a Sortainer 6 to hold your abrasives and they will all lock together as one neat unit. Sorted! Warning: This system is highly addictive!

SYS-TB-1 An open top box with two spacious compartments for better organisation of up to 7 kg of tools or consumables. The box will, of course, lock onto all the other Festool Systainers and the CLEANTEX Mobile dust extractors.

TRANSPORTATION BAGS

Ortlieb X-plorer Dry Bags

An endlessly useful totally waterproof bag ideal for holding PPE gear such as ropes and harnesses. Unlike most dry sacks they have easily adjustable shoulder straps and a hand grip. They roll down into a compact backpack but

expand to hold extra gear when you need it. The new comfortable and breathable padded mesh straps are adjustable and, if you are being really active, there is a cross over strap to prevent the

shoulder straps from slipping off. A good bag for cyclists as it is narrow enough not to obscure your view when glancing over your shoulder. Very strong and hard wearing. This new version has extra attachment points on the lower strap. Now available in stylish yellow and black. Anyone for a sack race?
