

BRISTOL PURE COLOUR – PRIMARY RANGE

Bristol Pure Colour Formulated by Bristol UK working in collaboration with some of the country's leading scenic artists. Ready to use straight from the pot, the heavily pigmented colours provide a rich colour medium for any artist. Bristol's Pure Colour range is a quick drying water-based decorative paint for interior use, with exceptional covering power and a matt finish. Extra bonding power can be achieved by adding Bristol Aqualak [page 48]. Aqualak can also be mixed with the paint to achieve eggshell finishes. The paint will be touch dry in about one hour but will continue to harden and the bond will improve over a further 48 hours. Covers 8 - 10 m² per litre. To convert kilos to litres simply multiply the weight by the conversion figure in the first column.

BRISTOL EARTH COLOURS

Bristol Earth Colours These superb rich earth colours are based on the same paint technology as Bristol's Primary Range shown on the previous page. They are water-based, totally matt and give exceptional coverage. The paint will be touch dry in about one hour but will continue to harden and the bond will improve over a further 48 hrs. Covers 8 - 10 m² per litre. To convert kilos to litres simply multiply the weight by the conversion figure in the first column.

BRISTOL METALLIC COLOURS

Bristol Metallic Colour Silver is a best-seller with Flints for good reason. Like all the Bristol metallics it is water-based with exceptional coverage and is ready to use. A unique feature of Bristol paints which proves popular is that they can be mixed with Pure Colour to create metallic colours which are very durable. Simply mix the paints together to the desired effect then add 25% of Aqua Plus [page 48] to prevent the colour and metallic from separating. This range of metallics is also available in a durable high adhesion water-based polyurethane. Please phone for details.

BRISTOL GLITTER PAINTS AND OVERLAYS

Bristol Glitter Paint and Overlays This exciting range of water-based decorative paints is made from sparkling glitter particles suspended in a strong clear glaze. A single coat thinly applied will allow the base colour to shine through while a thicker layer, or several coats, will form a solid glittering surface. With a wide choice of glitter paints on any base colour, the combined possibilities are countless. Application is best by spray, although it can be successfully rolled and small areas can be applied by brush. Care should be taken not to over-roll or over-brush as lapping or pulling may occur. The table shows the suggested basecoat to achieve the named colours.

1: BRISTOL PAINTS

BRISTOL SUPERSCENIC

NEW

Bristol SuperScenic The SuperScenic range from Bristol UK is a collection of highly concentrated acrylic-based matt paints, primarily suited to use on fabrics but able to achieve an opaque colour field on a range of different surfaces. These paints are designed to be diluted 1:1 with water prior to use. The hue of the colour doesn't change as significantly as other ranges do, so it's great for colour matching! The binder is available separately to allow colour dilution without reducing the adhesion.

| Bristol SuperScenic Binder | size | code | price |
|----------------------------|------|-------|--------|
| | 1 kg | BSSB1 | £17.19 |
| | 5 kg | BSSB5 | £67.62 |
