GAUZE HANKS AND WIRE RUNNERS

Gauze Hanks A very useful clip for fixing gauzes to tension wires. The clip grips the cloth by means of a small screw. The clip is then offered up to the tension wire at right angles and twisted to lock in place. The gauze can then silently slide up and down the wires whilst remaining stretched. Available in black and white. Also see Pelican Hooks [page 169].

Wire Runners Occasionally, it is preferable to use pulleys to run along tensioning wires to stretch out large cloths. These quiet smooth running pulleys have removable clevis pins so they can be inserted onto captive wires. The clevis pin can then either go directly through an eyelet in the cloth or be used with Holdons and Spaniflexes [page 183] to make a system which has the ability to adjust the cloth tension. The weight of the pulleys helps the cloth fly in. Great value.

PIPESNAPS

Pipesnaps A great product to radically speed up rigging and demounting drapes. The Pipesnap quickly clips onto any 50 mm Ø barrel. The weight of the cloth holds it securely in place. To release it, a cord can be attached to the hole on the rear of the clip. When the cord is pulled the clip cants back and releases from the bar. The clips can be linked with a cord so that fewer hauling cords are needed to release entire cloths.

LEAD FREE DRAPERY WEIGHT TAPE

NEW

1.5" Lead Free Drapery Tape First brought in as a special for the Props and Costume departments of the National Theatre, this drapery tape is great for weighting down skirts, cloaks, and even drapes! Many workshops are working towards being lead free to protect their staff, so the steel weights in this tape help with that. The polyester sheath allows for it to be quickly sewn along a hem. Each weight [25 x 25 mm] is sealed at 45 mm increments to allow the quick and easy adjustment of length.

Sold per metre, max length 22.86 m.
Weighs 248 g / m

HOLDONS

Holdons® These clever Swedish clips will grip any flexible material and provide a strong hanging point without the need for conventional eyelets. The more you pull, the more they grip. They provide the following advantages over eyelets:

✔ Banners can be rolled up totally flat without any eyelet damage
✔ Fixing points can be selected exactly where they are needed whilst on-site
✔ Excellent load capacity of 40 kg for the Mini Holdon and 100 kg for the Midi Holdon
✔ No tools needed just push to fit
✔ Completely reuseable and relocatable
✔ Ideal for stretching cycloramas

TRUSS SLEEVE

TrussSleeve® Bored with the "Truss Look" trade show stand? Then TrussSleeve is the innovative product for you. Instead of being a technical necessity, trusses become a decorative element. When lit from the inside the light is nicely diffused due to the ribbed fabric structure. TrussSleeve is inherently flame retardant and can be washed without losing its FR properties. The fabric is seamless and can be perforated allowing you to attach lights and hide cables. TrussSleeve is available in black or white. The 270 mm size we stock will fit a 300 x 300 mm three chord truss loosely or 300 x 300 mm four chord and 400 x 400 mm three chord trusses tightly. Also available to order to fit larger trusses. Full roll lengths are approximately 50 m. To paint truss, see HATO®Truss on page 13.
