

# FLINTS BLACK & WHITE PAINTS

**Flints Paints** Flints has a wide range of paints specially manufactured for us. This page features our most popular black and white paints. Since the introduction of Flints Theatre Black over five years ago it has soared in popularity and is now one of our biggest selling products. The reason it is so popular is that it's specially made to suit the exact requirements of the entertainments' industries. Here are just a few of your kind comments: "I will testify that this is indeed the blackest black I have ever used" "It could be said that it is so black that it makes other blacks look not black at all" "Agreed. Makes all other black paint look like grey" "The stuff from Flints is the best" "Flints seem to have had good reviews all round in terms of their black paint" "Domestic paint does not compare. Fantastic stuff" "I've always found Flints is the best option for Steel Deck, as it's more thick than normal black paint" "Personally I'd use Flints' own brand black paint..." "+1 for Flints Theatre Black Paint, it's top notch and cheaper than going down to B&Q or somesuch" "It's also blacker, the Dulux stuff is just a REALLY dark blue in comparison" "We used the Flints Theatrical Black and cannot praise that stuff enough – amazing coverage and it is a real black!"

All these paints are water-based

**Flints Theatre Black Paint** After Bolloms ceased production we needed to find a replacement for their Black Emulsion. We tried many of the paints already available on the market but soon realised that we would have to get a paint specially made to meet the demanding specification. As we sell very large quantities of black and white paint we were able to ensure a high specification, yet provide it at an economical bulk rate. We tested many batch samples from different companies and made a series of subtle formula adjustments to create a great general purpose black which is economical in use. We hope you like it. Covers approximately 10 m<sup>2</sup> per litre – at the recommended rate, but watch the video to see just how far one roller full of Flints Black will go. It just goes on and on and on!

- ✓ Intense deep black
- ✓ Brilliant one coat obliteration
- ✓ Very low reflectance
- ✓ Good durability
- ✓ Resistant to wear through, great for stage floors
- ✓ Easy flowing for roller, brush or spray
- ✓ Low VOC, just 1g/L [EU limit value for this product (cat A/a): 30 g/L]
- ✓ Economical in use, ideal for large areas and stage floors

**Flints Multi Purpose Primer** Flints water-based primer is suitable for painting wood, steel and plastics, and it is excellent as a substitute for etch primer. It is not suitable for electrostatic spraying. The water base ensures there are no unpleasant fumes. This product will provide a long lasting protection for steel. The surface of the material should be free from grease before application. Like other water-based products it takes longer to cure than solvent-based products. Flints matt Black Primer can also be used for masking out the back of BP screens. It adheres well and provides a completely opaque covering. Covers approximately 12 m<sup>2</sup> per litre. Matt finish.

- ✓ Low odour
- ✓ No fire risk during use
- ✓ Environmentally sound
- ✓ New formulation with improved finish
