Unfortunately, Rosco no longer make their 0.397 hexagonal glitter. For precision-cut glitter of approximately 0.015 mm see Fine Cut Polyester Glitter on the following page.

**Flints PVC Glitter** Our range of popular non-tarnishing plastic glitters are non-abrasive and non-toxic. They are packed in convenient clear 250 g shaker pots, although large quantities may be supplied loose packed. PVA glue or glaze provides satisfactory results for most applications but for really tough high wear areas try using Rosco CrystalGel [page 56] or Flints Texture Binder [page 57]. We supply our standard glitters as small hexagonal "jewels" approximately 0.75 mm across or "squares" approximately 3.2 mm across. 500 g covers very approximately 1 m<sup>2</sup>.

## GIANT GLITTER AND FLUTTER GLITTER

**F**

**Giant Glitter Squares and Flutter Glitter** These popular soft foil squares [20 x 20 mm] will fall slowly to the ground if thrown from a balcony making an impressive display ideal for any celebration. The rectangular Flutter Glitter [20 x 50 mm] will flutter down even more slowly for a prolonged effect.

It can be added to Marble Dust [page 25] or M11 crystals to provide a crystalline frosted snow effect or just use it by itself for an interesting surface. See also page 91 for Artificial Snow. ## METALLIC GLITTER SPRAYS

### Spring Metallic Glitter Craft Spray

These sprays have a bolder glitter than the Plasti-kote ones but they are in a more transparent carrier. Use them over any colour base for a great overlay effect. Note: The glitter tends to rub off slightly and would benefit from a spray of Plasti-Kote Clear Sealer [page 43].

| Spring Metallic Glitter | code      | 300 ml | Tradeline 12+ |
|-------------------------|-----------|--------|---------------|
| Silver Glitter          | BOLPT1001 | £6.45  | £5.80         |
| Gold Glitter            | BOLPT1000 | £6.45  | £5.80         |

### Plasti-Kote Glitter Spray

These sprays deliver a very fine glitter finish. Because the glitter is very fine they are more suited to close up display work rather than for use on stage. The aerosols are, of course, CFC-free. Covers approx 1.5 m<sup>2</sup> per 400 ml. See also Bristol Glitter Paint [page 9] for a water-based glaze.
