MEGADEK

MEGADEK is a registered trade mark

HIRE

The modular staging system available for hire. Megadeks are staging pallets which can be quickly and easily erected by fitting scaffolding legs of the required height into the corner posts, where they are held by a thumb screw or bolt. The decks can then be easily bolted together, end to end or side to side.

STRONG Megadeks are immensely strong being constructed from high quality tube with the top lip folded to double the wall thickness just where it is needed. The heavy gauge corner posts prevent damage even if the pallets are dropped.

Certified to 5.00kN/sq m.

ADAPTABLE The Megadek system can be used to create stages that are flat, sloping or tiered to any height.

DURABLE They are very resistant to wear. With the edges of the 18mm plywood tops encased in steel they can be dragged off lorries with no damage.

FIRE RESISTANT With the edges of the plywood top protected by steel they are difficult to ignite.

LIGHT Complete with the top they weigh approximately 65kg.

TRACKING Megadeks incorporate a novel tracking system. By using bushes and special return pulley, tracks can be installed in minutes. The smooth all steel sides present a perfect trouble free track.

FAST Megadeks are very fast to erect and strike.

LOW PROFILE Megadeks are only 110mm deep. Not only does this save storage space, but it can be very useful in improving sight lines from front row seats, when the system is being used as a false floor. The low profile also allows vehicles to be driven directly onto the stage with no extra ramps.

SOLID The combination of the solid frame and neoprene buffer eliminates the problems of drumming and rattle found in other systems.

SPECIAL PROJECTS We can supply drawings and legs for stages with tracks, slopes, and tiers.

CLEAN The clean lines of the steel frame avoids the need for fascia panels. The smooth edges protect hands from splinters.

TRUCKABLE Slot in wheels are available as well as adjustable feet for uneven ground.

HANDRAILS Newly designed handrail system is particularly useful when using Megadeks for audience seating.

Megadek Staging System Weekly Hire Rates

Standard sizes mm/ft	code	1st week	2nd week	weeks
2440x1220 8x4	HIRMD84	£17.50	£15.00	£7.50

TAB TRACK HIRE

Huge stocks available for hire!

Flints have Triple E Unitrack and Halls T70 track available for hire. We default to the Triple E Unitrack unless you specifically require Halls track to match existing stock etc. Our stocks of Triple E Unitrack are very large and include 90 degree sections to form horseshoes or complete wrap around pull along tracks.

To keep things simple, the price includes everything you need including standard runners, master carriers, return, header and floor pulleys plus clamps to fix to standard barrel. Control line is supplied as a sale item.

When ordering your hire track please specify the following:

- ✓ Centre opening or single wipe.
- ✓ Overlapped track or overlap arms on master carriers [simpler].
- ✓ Hanging from standard bar 45-60mm Ø or deadline fixings.
- ✓ Floor fixing pulley or foot stirrup.
- ✓ The drop of the drapes so we can work out the hauling line length.

Unitrack	code	1st week	subsequent weeks
Unitrack per m complete	HIREEE	£10.00	£4.50

Components if hired separately.

Track alone per m	HIREEET	£5.00	£3.00
90° corner section radius 2m	HIREEE90T	£15.00	
Unitrack Runners	HIREEER	£0.80	£0.50
Unitrack Master Runner	HIREEEMR	£3.50	£1.50
Unitrack Scenery Carriers	HIREEESC	£7.00	£4.00

Other individual components are available to hire.

Special Project Sample Prices

16 metre wide x 8 metre complete wrap around pull along track with 2m radius corners including hook clamps, bobbins, etc
£480.00 first week then £216.00 per week

10 metre wide x 5 metre horseshoe pull along track with 2m radius corners including hook clamps, bobbins, etc
£200.00 first week then £90.00 per week

LONG HIRE PERIODS

Long Hires Please phone for a quote for hires of ten weeks or more. For technical details of the tracks see pages 2.48 to 2.53. Other individual components are available to hire.

Halls T70 Track Sometimes you may need to hire track to extend existing systems or the older look of this track can be useful for period plays when the track is in sight.
