MAGNETIC SWEEPERS

Magnetic Sweepers

We've been looking for one of these for years! This is a neat wheeled magnetic sweeper with a telescopic handle capable of collecting up to 20lbs of magnetic items. Ideal for collecting tacks after stage cloths have been changed. Use it around the workshop to recycle or sort out

dropped screws and nails. Run it over the stage after the fit up to ensure nuts, nails, washers, swarf and filings do not cause damage to scenery tracks or equipment such as solenoids as well as safeguarding against injury to stage staff, actors or dancers feet. A great value piece of stage equipment.

MOPS AND SQUEEGEES

Mop handle and PY head

Mops The handle includes the bracket to hold the head. There

is some debate as to which head to choose. The twine one is natural and the PY one is artificial. Rumour has it that the artificial one is more absorbent but we haven't conducted any experiments and nor do we intend to.

Bogus Paper Bogus paper is a recycled versatile, multipurpose, economical grey paper that provides great absorbency. It has a slightly rough but soft finish. Since it absorbs so much moisture it is a fantastic product for covering paint floors prior to laying out cloths.

- ✓ Avoids water pooling up under gauzes and helps to prevent stains caused by fire proofing chemicals.
- ✓ Protects your paint floor from textures and stains.
- ✓ Aids drying time of cloths.
- ✓ Lays out flatter than polythene sheeting [see page 3.63].
- ✓ Extra wide size 1828mm [72"] and heaviest weight available!

IPA Solvent is isopropyl alcohol which is universally accepted as a "safe" solvent for cleaning electrical components such as video heads. It will form an azeotrope- a mixture of water and IPA which evaporates quicker than water. Excellent for cleaning prior to painting as the IPA evaporates quickly [unlike white spirits] Conforms to BS1595 DIN 53245
