TRESTLES AND HOP UPS

new

Innovative and practical

Red Rock Trestles These trestles immediately caught my eye. Traditional timber trestles take a long time to make and become rickety after a while. Steel trestles aren't much fun to saw on and they are heavy and difficult to store. Red Rock Trestles are such a simple idea, combining the strength of steel with a user friendly timber top.

- ✓ Light and strong.
- ✓ Easy to store and transport-fits in the boot of your car.
- ✓ No need to replace the trestle if you saw through the wood- just replace the wood.
- ✓ The length can be made to suit your work. 4ft being the norm.
- ✓ Available in four sizes.
- ✓ Vices can be bolted to the timber surface.

Perfect for working on stage, on set, on site, in the workshop or the photographers and artists studios. Use them for making tables and platforms. Choose between four heights 650, 680, 750 and 780mm, and between narrow timber for a conventional trestle or wide timber for making platforms etc.

Prices slashed!

Red Rock Trestles	code	each*	per pair*
650mm high using 4x2 nom.	TOLRT65S	£24.82	£42.24
750mm high using 4x2 nom	TOLRT75S	£27.87	£47.46
680mm high using 7½x1½ nom	TOLRT68W	£32.46	£55.24
780mm high using 9x2 nom.	TOLRT78W	£34.90	£59.40

*each is two pieces to make one trestle. * A pair is two trestles enough to form a table.

Timber is not normally supplied with the trestles as many clients like to make them to custom lengths, however if it is easier for you to order your trestles complete we can supply 1m lengths to suit at the following prices.

Timber for Red Rock Trestles	code	per 1m length
4x2 nom.	TOLRTTIM42	£10.50
7½x1½ nom	TOLRTTIM71	£15.00
9x2 nom.	TOLRTTIM92	£25.00
