

PANEL CARRIERS

Panel Carrier – The Original

Transforms lifting heavy panels into an effortless task due to a clever ergonomic design. The cams quickly [and gently] lock onto any panel up to 65 mm thick at a comfortable handling height. This prevents having to bend down to get your fingers under heavy panels and saves your back from undue strain. The comfy handgrip protects your hands

from sharp edges and splinters. This particular design can also grip the top of narrow panels which panel lifters, with a single central leg, are unable to do. Have a look at Spannfix One-Handed Clamp [page 285].

☐ Supplied in a box with: two handles.

SUCTION PAD PANEL LIFTERS

Festool quality

Gecko Double Suction Pad

This Festool product is designed primarily for use in conjunction with Festool guide rails [page 262]. Use the lifters to move smooth panels to the work position then attach the guide rail ready for a secure cut. Complete with guide rail adapter. By clamping a Manfrotto Super Clamp [page 331] to the central bar, lights and cameras can be quickly secured to any shiny surface such as cars or glass windows. A great asset on location.

PLANKFORM™

Coming soon - PlankForm™

Shorten the legs for a bench to sit and have a cuppa.

Alasdair's brainchild, PlankForm™, spawned from a need for trestle tables which could be stored in a small space, be transported easily, and have endless uses. Simply slot a scaffolding board of your desired length [38 mm x 225 mm] through two PlankForm™ units and it will transform your plank into a platform. The legs are simply four scaffolding tubes of the same length. You can create anything from a low bench to a 7' frame for a swing.

- ✓ Easily fits in the boot of your car
- ✓ Extremely versatile! Use any length of scaffolding plank and tube
- ✓ The horizontal bar between the sockets is perfect for hanging items like tools or a paint kettle
- ✓ Wingnuts threaded into the sockets keep the trestle secure and stable.
- ✓ Create multiple trestles to create a supporting surface to work on.
