

MYLANDS PAINTS

Mylands have been manufacturing wood finishing products since 1884. They also manufacture a comprehensive range of flame retardant paints for the TV and film industry. We have listed a selection of their popular scenic products below.

MYLANDS COLOURED FLAME RETARDANT EMULSION PAINTS

A professional-grade flame retardant [see note on page 49 about FR] emulsion paint formulated for the theatre, film, and TV industries. The more popular colours, which are marked with a ✓, are held in stock. Other colours are normally with us the following day. The colours marked with an * are extra strength colours ideal for colouring, staining and tinting emulsions but they can also be used as standard emulsion paint. Our colour chart only shows a selection of the full colour range. These paints are priced according to Mylands' three colour ranges.
