

# paint +

Due to the limitations of the printing process, the colour chart should only be used as a rough guide. The colour shown on the left is full strength and the one on the right is one part Supersaturated, ten parts clear and one part white. For accurate matching consider purchasing the Starter Pack

### Paint Plus Scenic Flat Supersaturated Scenic Flat

is a custom formulation acrylic paint for the scenic artist suitable for interior and exterior set construction. It is self priming on most substrates and it dries to a flexible finish with a high gloss but for translucent wash effects. The level of sheen is adjustable from extremely low to minimise light reflection. Paint Plus is a quality odourless making it easy to work with and kind to the environment. Use it straight from the pot for maximum opacity, reduce it with white to produce undertones or dilute it with water to achieve transparent colour washes.

- ✓ Very low gloss finish (0-5% gloss)
- ✓ Very fine finish
- ✓ Inside or outside
- ✓ Virtually odourless
- ✓ Self priming on most surfaces
