

POWER TOOLS – FESTOOL

Festool Tools

Many years ago Flints decided that we just had to stock Festool equipment. We have used their tools and quite honestly, they are the best. The extra price you pay is amply rewarded not only by the longevity of the tools [three-year guarantee!] but by their working efficiency.

I have personally found Festool sanders to work at least twice as effectively as anything else I have tried. To put it another way, a job that was going to take four days only takes two. You soon see how the extra expenditure begins to pay dividends.

But there's more, Festool equipment is renowned for keeping dust to a minimum so your working environment becomes safer and the work you produce becomes more precise.

Our problem with Festool tools is that they are packed with so many outstanding features that we are finding it impossible to squeeze them into the catalogue pages we allocated to the range!

All of our Festool Prices are highly competitive. We are able to offer these amazing prices on the condition that we register the tool with Festool on your behalf.

By registering your tool you get all these outstanding benefits:

- ✓ 36 months Free Theft Protection
- ✓ Free 15 day Trial
- ✓ 36 months Cost Protection Guarantee
- ✓ 10 Years Spare Parts Availability
- ✓ Fast online repair and pickup system.

Any problems with your tools, just call Festool direct on 01284 760 791

FESTOOL CORDLESS DRILLS

Festool CXS Cordless Drill Set 10.8 V

This neat, lightweight tool has been updated with an even longer running battery. A great choice if a lot of your work involves difficult or awkward spaces.

When it comes to performance, size really isn't that important

- ✓ Impressive ergonomics and very low weight for convenient drilling and fastening
- ✓ The compact, handy shape makes work easier, even in cramped spaces
- ✓ Complete with CENTROTEC quick tool-change system, standard chuck and right-angle chuck. All in a Festool Systerainer

- ✓ 12 torque settings and torque switch-off for precision fastening
- ✓ Built-in work light
- ✓ Latest Li-ion battery technology for the longest sustained usage

SPECIFICATION: Battery voltage: 10.8 V. Idling speed: 1st gear/2nd gear: 0 - 430/0 - 1,300 min⁻¹. Drilling diameter: wood/steel 12/8 mm. Torque adjustment: 0.3 - 3.4 Nm. Max torque: wood/steel 10/16 Nm. Chuck range: 1 - 10 mm. Battery: BP-XS Li-ion 2.6 Ah. Charging time: Li-ion 45 min. Weight with Li-ion: 0.9 kg.

☐ Supplied in a Systerainer SYS 1 T-LOC with: charger MXC, CENTROTEC tool chuck, CENTROTEC bit holder, FastFix 10 mm keyless chuck, PZ2 bit, Elbow Adapter CXS, spare battery pack BP-XS Li-Ion 2.6 Ah.

CXS Li 1.5 Set GB	code	list	Tradeline
Drill set with attachments listed	FES564533	£261.00	£204.20

This could be your favourite tool! It is incredibly handy. Run it from its own battery or use the battery from your drill, plug it into the mains or a 12 V adapter. It throws a beautiful even light to radically improve the quality of your work. Page 328.

Festool Cordless Drill T 18+3 Li Brains meets brawn

in this powerful professional drill:

- ✓ Impressive ergonomics: compact, lightweight and perfectly balanced
- ✓ Brushless EC-TEC motor with integrated motor management for long service life and the highest output
- ✓ FastFix interface for all FastFix attachments and CENTROTEC rapid tool-change system
- ✓ Fully electronic torque setting and switch-off for precise screwdriving
- ✓ High-quality Li-ion battery technology for the longest sustained usage
- ✓ Highest flexibility and economy: battery packs in same voltage class can be used
- ✓ Switch over from screwdriving to drilling without changing the set torque

SPECIFICATION: Battery voltage: 18V. Idling speed: 1st gear/2nd gear: 0 - 450/0 - 1,500 min⁻¹. Drilling diameter: wood/steel 45/13 mm. Torque adjustment: 1st gear/2nd gear: 0.8 - 8/0.5 - 6 Nm. Max torque: wood/steel 35/50 Nm. Chuck range: 1.5 - 13 mm. Battery: Li-ion 5.2 Ah. Charging time: Li-ion approx 40-45 min. Weight with Li-ion: 1.8 kg.

Option One: The Full Works

☐ Supplied in a SYSTAINER SYS 2 T-LOC with: TCL 6 charger, CENTROTEC tool chuck, CENTROTEC bit holder, FastFix 13 mm keyless chuck, PZ2 bit, FastFix angle attachment, FastFix eccentric attachment, belt clip, 2 x battery pack Li-ion 5.2 Ah.

T 18+3 Li 5,2-Set GB 240 V	code	list	Tradeline
Drill set with attachments listed	FES574759	£570.00	£447.30

Option Two: The Basic Unit

As many of our clients already have Festool cordless tools it makes sense to offer an option to purchase the basic drill unit so that batteries can be shared from existing tools.

☐ Supplied in a SYSTAINER SYS 2 T-LOC with: CENTROTEC tool chuck, CENTROTEC bit holder, FastFix 13 mm keyless chuck, PZ2 bit, belt clip, without battery pack, without charger .

FESTOOL DRILL ATTACHMENTS

DD-AS

FastFix Angle Attachments

These are amazingly useful accessories enabling drilling or screwdriving in all sorts of awkward places. They are supplied with the full drill sets listed overleaf.

Festool Drill Attachments	code	price
FastFix Angle Attachment DD-AS [not for CXS]	FES490293	£95.30
Angle Attachment for CXS	FES497951	£65.70

Eccentric Attachment It is surprising how often this useful accessory will get used. Whereas previously screws and drill holes near to edges would have been be squint, now they can be correctly placed. Of course, the poor carpenter without the attachment will be stuffed when they try to dismantle your handicraft. This attachment is supplied with the drill T18+3 set listed overleaf. This is a typical piece of Festool brilliance.

Festool Drill Attachments	code	price
FastFix Eccentric Attachment DD-ES [not for CXS]	FES490294	£95.30

FastFix Depth Stop Allows you to define the depth to drive a screw head. Not suitable for CXS drills.

FESTOOL JIGSAWS

Carvex PS 420 Lightweight assembly jigsaws with a powerful pulling force and unrivalled profile-cutting capacity.

- ✓ Excellent behaviour in curves thanks to three-fold saw blade guide and rigid lifter rod
- ✓ Powerful cutting stroke for rapid working progress
- ✓ Simple handling thanks to the softgrip and ergonomic design
- ✓ Electronic switch-on/off both sides, reachable in every grip position
- ✓ Fast, tool-free changing of tables, base plates and saw blades
- ✓ Low weight to save energy: 1.9 kg
- ✓ Easily visible scribe mark through switchable stroboscope light and powerful extraction
- ✓ Tool length can be shortened with swivel-mounted Plug It cable

SPECIFICATION: Power supply: 240 V. Power consumption: 550 W. Stroke rate: 1,500 - 3,800 min⁻¹. Pendulum cover adjustment in stages: 4. Cutting depth: wood 120 mm, NF metals 20 mm, steel [soft] 10 mm. Weight: 1.9 kg.

☐ Supplied in a Systainer SYS 2 T-LOC with: two blades & splinter guard.

FESTOOL PLANER

Planer EHL 65 This is a favourite with professional carpenters. Really great value.

- ✓ Low weight and perfectly balanced for non-tiring work
- ✓ Compact design, ergonomic handle, low operating noise
- ✓ Spiral blade for a smooth planing pattern – no chatter marks and less noise
- ✓ Also available a range of heads to create wave and rustic effects [please phone for details]
- ✓ Quick blade changes
- ✓ Now with Plug It lead
- ✓ Efficient dust extraction at the left/right side – no clean-up needed

SPECIFICATION: Power consumption: 720 W. Rotational speed: 15,600 min. Planing width: 65 mm. Planing depth: 0 - 4 mm. Max rebate depth: 23 mm. Connection Ø d/e: 27 mm. Noise at idling speed: 76 dB[A]. Weight: 2,4 kg.

☐ Supplied in Systainer SYS 2 T-LOC with: parallel fence and tool.

FESTOOL DOMINO JOINTING SYSTEM

The DOMINO jointing system An essential component in wooden jointing.

- ✓ More versatile: suitable for panel joins, and jointing frames and racks
 - ✓ More stable: the special shape and large surface area for gluing on the DOMINO dowel ensure maximum stability
 - ✓ Quicker: the first dowel hole is aligned with extreme ease and routed accurately using stop pins. It secures the joined work pieces immediately, accurately and flush with the edge
 - ✓ The system also tolerates smaller inaccuracies in adjacent dowel holes, allowing you to work even more quickly and easily
- DOMINO Jointing System DF 500 Q-Plus GB**
As unique as the system: the DOMINO jointer combines exceptional versatility with simple handling and maximum precision.
- ✓ **Efficient extraction.** Extracts up to 95% of chips generated
 - ✓ **Depth stop.** Quick, precise adjustment for five different depths
 - ✓ **Routing height adjuster with scale.** Simple and precise routing
 - ✓ **Movable stepped stop.** Height adjuster for central hole in material thicknesses 16, 20, 22, 25, 28, 40 mm
 - ✓ **Retractable stop pins.** For quick and precise positioning of the first DOMINO dowel on both work pieces
 - ✓ **Refined technology.** High-quality, robust inner mechanism for consistently accurate routing results
 - ✓ **Patented principle.** Route long holes in an instant thanks to the simultaneous turning and oscillating movement. No kickbacks
 - ✓ **Hole width selection.** Easy to adjust while the biscuit jointer is operating – fixed long hole [1] or with clearance [2]

DOMINO Jointing System XL DF 700 EQ-Plus GB

- The latest model capable of 140 mm tenons! Extra mobile. Extra stable.
- ✓ Maximum stability of joints up to a dowel size of 14 x 140 mm
 - ✓ Patented routing principle unique to hand-held machines for accurate work with no kickbacks

- ✓ Saves more time compared to a stationary machine
- ✓ Stops that are quick and easy to adjust, for accurate results
- ✓ System accessories compatible with both DOMINO jointers

FESTOOL SLIDING COMPOUND MITRE SAW

The ultimate
chop saw!

KS 120 UG-set GB 240 V A sliding compound mitre saw that combines a large cutting capacity with a compact lightweight design that achieves the precision needed for high-quality results and detailed solutions to inspire any professional user. Absolutely packed with unique features. Including:

- ✓ **Variable speed pre-selection** Smooth start up, safety brake and overload protection. Special electronics adapt the machine performance to the working material
- ✓ **Precision dual-line laser** The dual laser lines will always show the exact cut whether viewed from left or right
- ✓ **FastFix rapid blade changing system**
- ✓ **Convenient operation** The guard release is integrated in the two-stage switch and can be operated by both right- and left-handers. The same applies for the safety switch-on lock
- ✓ **Dust extraction** The KAPEX is fitted with an extraction connector and an efficient chip deflector funnel – the chips are extracted directly where they are produced.
- ✓ **Accurate Settings** Fine adjuster operated from the front, for precise cutting angles. Make complex cuts in no time at all
- ✓ **Precision grooving** Cut accurate grooves with the stepless trenching depth adjuster – simply actuate the lever, set the trenching depth with a single turn and start working
- ✓ **120 mm cutting depth** The unique special cutting position on the KAPEX allows you to cut strip material with a maximum height of 120 mm quickly, safely and accurately
- ✓ **Intelligent base height** The saw base is the same height as the SYSTAINER SYS 1, which can be used to support long workpieces when working on the floor

SPECIFICATION: Power consumption: 1,600 W. Idle engine speed: 1,400 - 3,400 rpm. Saw blade diameter: 260 mm. Inclination angle: 47° - 47°. Mitre angle: 50°/60°. Cutting depth at 90°/90°: 305 x 88 mm. Cutting depth at 45°/90°: 215 x 88 mm. Cutting depth at 45°/45°[left]: 215 x 55 mm. Cutting depth at 45°/45°[right]: 215 x 35 mm. Special cutting depth at 45°/90°[right]: 20 x 120 mm. Crown moulding diagonal cut 168 mm 0 - 43/0 - 55 mm. Connection Ø d/e: 27/36 mm. Dimensions: 713 x 500 x 470 mm. Work height: 900 mm. Weight: 21.5 kg.

☐ Supplied in a carton with: HW universal saw blade W60, bevel, work piece clamp, operation tool, underframe, adjustable stop, telescopic slide-out scale, fold-out pedestal and carry case.

FESTOOL PLUNGE SAWS

The best plunge-
cut saw Festool
have ever built!

TS55 REBQ Plus-FS GB The hugely popular TS55! The best ever circular saw offering very precise cutting in materials up to 55 mm thick. Perfect for cutting ply tops to size or doors to length using the guide rail. This saw will provide splinter-free very high-quality results.

- ✓ **Maximum flexibility** due to flat housing for minimum wall distance of just 12 mm.
- ✓ **Even more precise** thanks to angle setting with snap-in points and indentation [-1° and/or 47°]
- ✓ **Guide wedge** for safer work and simple positioning in existing joint
- ✓ **Good view** of scribe line and saw blade thanks to the new flush and movable viewing window
- ✓ **Improved dust extraction** thanks to the new shape of the duct
- ✓ **Simpler operation** with the double cutting depth scale [with/without guide rail]
- ✓ **More benefits** – splinter guard, FastFix, play adjustment without the need for tools, quick brake, etc.

SPECIFICATION: Power consumption: 1,200 W. Idle engine speed: 2,000 - 5,200 min⁻¹. Saw blade diameter: 160 mm. Inclination: -1/+47°. Cutting depth: 0 - 55 mm. Cutting depth at 45°: 43 mm. Cutting depth at 90°/45°: 0 - 43/0 - 55 mm. Connection Ø d/e: 27/36 mm. Weight: 4.5 kg.

☐ Supplied in Systainer 4 T-LOC complete with: fine-tooth blade HW W48, guide rail FS 1400/2, splinter guard, flag window, vision panel and operation tool.

NEW TYPE

The best ever plunge-cut saw is INDEPENDENT

TSC55 Cordless Plunge Saw

The best ever circular saw offering very precise cutting in materials up to 55 mm thick. Perfect for cutting ply tops to size or doors to length by using

the guide rail. This saw will provide splinter-free very high-quality results. The new cordless set-up ensures that you'll get the job done regardless of the site location and proximity to a power point, without compromising on power!

- ✓ Brushless EC-TEC motor combined with lithium-ion batteries for maximum cutting power
- ✓ Flexible dual battery concept: can be operated with two 18-volt battery packs [36 V] for maximum power or one 18-volt battery pack for low weight
- ✓ High-speed EC-TEC motor for perfect cutting quality and rapid working progress
- ✓ New Fastfix generation for even quicker and easier saw blade changes and adaptation to the working material

Ideal for working on site or outside!

SPECIFICATION: Battery Voltage: 18/36 V. Idle engine speed: 2,650-3800/5,200 min⁻¹. Saw blade diameter: 160 mm. Inclination: -1/+47°. Cutting depth: 0 - 55 mm. Cutting depth at 45°: 43 mm. Connection Ø d/e: 27/36 mm. Weight: 4.6/5.3 kg. Li-ion battery capacity: 5.2 Ah.

- ❑ **BASIC Version** Supplied in a SYSTAINER SYS 5 T-LOC with: a fine tooth saw blade HW W48, chip collection bag, splinter guard, operation tool, Flag window [vision panel].
- ❑ **PLUS Version** Supplied as listed in basic version above in addition to: 2 x battery pack BPC 18 Li 5.2 Ah, TCL 6 charger.

FESTOOL SANDING AND POLISHING EQUIPMENT

The round tool that also sands in corners

Geared Eccentric Sander ROTEX RO 90 DX

The sander from Festool is ideally suited for sanding off paint and varnish especially on vertical or overhead surfaces. The interchangeable heads allow

access into corners and edges and the lightweight compact housing prevents fatigue.

- ✓ Four tools in one: for coarse sanding, fine sanding, delta sanding and polishing. Resulting in low investment costs and savings on working time
- ✓ Eccentric motion for high-quality scratch-free surfaces
- ✓ Sanding up to the edge thanks to the Festool PROTECTOR
- ✓ ROTEX rotary motion for efficient material removal
- ✓ FastFix sanding pad system – tool-less
- ✓ Ideal ergonomic grip positions
- ✓ Effortless work thanks to a weight < 1.5 kg

SPECIFICATION: Power consumption: 400 W. ROTEX rotary motion speed: 260 - 520 min⁻¹. Eccentric motion speed: 3,500 - 7,000 min⁻¹. Sanding stroke: 3 mm. FastFix sanding pad Ø: 90 mm. Connection Ø d/e: 27 mm. Weight: 1.5 kg.

- ❑ Supplied in a Systainer SYS 2 T-LOC with: FastFix Ø 90 mm [soft-HT] sanding pad, StickFix sanding pad V93 and a Festool PROTECTOR.

NEW TYPE

A personal favourite

Sander Polisher RO 150/125 FEQ-Plus GB 240 V

I have used the 125 mm version of this machine since its introduction and I can't praise it too highly. There is a choice between a coarse sanding motion for very rapid stock removal and a fine sanding motion for superb finishes. The 150 mm version is even more powerful but a little heavier. These machines will pay back their cost many times in efficiency savings. The new 150 mm sander can now be used with Multi-Jetstream 2. This modified hole pattern increases airflow and results in even better dust extraction!

- ✓ Coarse sanding, fine sanding, and polishing!
- ✓ ROTEX rotary motion for efficient material removal
- ✓ Eccentric motion for high-quality scratch-free surfaces
- ✓ FastFix sanding pad system, quick and tool-less
- ✓ Ideal ergonomic grip positions
- ✓ Sanding up to the edge thanks to the Festool PROTECTOR
- ✓ Virtually no dust! [when connected to a Festool extractor]

SPECIFICATION: ROTEX 150/125 Power supply: 240 V. Power consumption: 720/500 W. ROTEX rotary motion speed: 320 - 660/300 - 600 min⁻¹. Eccentric motion speed: 3,300 - 6,800/3,000 - 6,000 min⁻¹. Sanding stroke: 5/3.6 mm. FastFix sanding pad Ø: 150/125 mm. Connection Ø d/e: 27 mm. Weight: 2.3/1.9 kg.

- ❑ 125 mm supplied in Systainer SYS 2 T-LOC with: FastFix Pad Ø 125 mm [soft HT] and a Festool PROTECTOR.
- ❑ 150 mm supplied in Systainer SYS 3 T-LOC with: Multi-Jetstream 2 FastFix Pad Ø 150 mm [soft W] and a Festool PROTECTOR.

FESTOOL RUSTOFIX TIMBER TEXTURER

The fast and healthy option to sandblasting or torching

Rustofix Timber Texturer This amazing machine will produce three-dimensional raised texture wooden surfaces in no time at all. One tool for texturing, intermediate sanding and smoothing. When coupled with a Festool extractor, dust and mess will be minimal. This is certainly a massive improvement on sandblasting or blowtorching timber – and safer too!

- ✓ Three-in-one tool – texturing, intermediate sanding and smoothing
- ✓ Adjustable support rollers for precise setting of the texturing depth
- ✓ Quick, easy brush changes
- ✓ Overload protection for a long service life
- ✓ Dust extraction system for healthy work
- ✓ MMC electronics for adaptation to the working material and temperature monitoring

SPECIFICATION: Power consumption: 1,500 W. Idle engine speed: 800-4,000 min⁻¹. Tool diameter: 150 mm. Connection Ø d/e: 27mm. Weight: 7.5 kg.

☐ Supplied in carrying case with: LD 85 brush, KB 85 brush, extractor hood with handle, tool arbour, clamping flange, operation tool.

FESTOOL MOBILE DUST EXTRACTION

Festool Dust Extractors

Anyone performing sawing, sanding or routing work on a regular basis will appreciate the importance of an efficient dust extractor. Not only are there significant health benefits for you and those working around you, but by keeping the work clear of dust precise results can be achieved. Each of the extractors has a SYS-Dock for holding Festool Systainers firmly in place. You will notice a substantial difference to your working environment by choosing Festool extractors.

All the Festool Extractors listed on these pages have these outstanding features!

- ✓ Approved for dust category L [does not allow more than 1% of dust to pass out of extractor]
- ✓ Antistatic function prevents static developing during work
- ✓ Attachment of Systainers via SYS-Dock
- ✓ Integral automatic electronic switch-on/shut-off for extraction from electric power tools. A really useful feature – the suction even runs for a few seconds after you turn off the tool to clean out the hose!
- ✓ Suitable for dust with limit values > 1 mg/m³
- ✓ For both wet and dry extraction

NEW TYPE

Mobile Dust Extractor CTL MINI

A small, practical mobile dust extractor. This is great choice if you need to work in confined areas or if you have to lift it onto upper levels. Even narrow ladders do not pose a problem.

- ✓ Very compact and lightweight
- ✓ Practical store for hose & mains cable

- ✓ Storage compartment for replacement filter bag
- ✓ Economical – optimal utilisation of the filter bag in the container
- ✓ Ideal for assembly work
- ✓ Best suited to smaller sanding, routing, sawing and drilling tasks
- ✓ Ideal for final clean-up

Fitted with tapered D32/27 hose for improved suction and the robust housing featuring the T-Loc design locking system.

SPECIFICATION: Power consumption: 400 - 1,200 W. Airflow max: 3,700 L/min. Max vacuum: 24,000 Pa. Filter surface area: 5,000 cm². Rubber-insulated mains cable: 7.5 m. Container/filter bag capacity: 10/7.5 L. Dimension LxDxH: 430 x 330 x 422 mm. Max appliance socket connected load: 2,400 W. Weight: 8.8 kg. ☐ Supplied in a carton with: fitted filter bag, suction hose Ø 32/27 mm x 3.5 m AS/CT with rotating angle adapter at extractor side, hose holder, and SYS-Dock with T-Loc function.
