

# ROLLERS

We stock a large range of rollers for every purpose. For painting very large areas we stock sleeves up to 18" wide. For texturing, foam rollers can be cut away to add depth and interest to your work. To paint rough or textured surfaces choose a long-pile roller such as the Purdy Pro-Extra Colossus with a massive 1" nap! For gloss and varnish work you need to choose a short-pile roller with minimum fibre loss such as the Hamilton Perfection 1/4" or the Purdy White Dove, or why not try the Jenny Foam Roller System [page 65] used by professional yacht painters.

## FOR THE LARGE STAGE OR STUDIO

### Purdy Adjustable Frame 12-18"

This handsome-looking lightweight frame uses the yellow cam latches to fix the arm at the desired extension. It feels very secure but you will

probably have to tighten the adjustment screws over time. There are measurements marked inside the frame for convenience. It is angled to get really close to corners and skirting. Universally threaded for any pole but why not use with the Purdy extension poles on page 71?

Purdy Adjustable Frame	code	list	price
305 - 457 mm [12" -18"]	PBR140753018	£19.20	£17.28

### Double Arm Roller Frame

These roller frames need an extension pole as they have no handle. They are ideal for photographic

coves and painting very large floor areas. The adjustable frame will take 12", 15" and [our largest] 18" sleeves.

Internal handle diameter of all the broomstick handles is 24 mm.

## PREMIUM ROLLERS

All of the equipment listed above is perfectly suited to the majority of tasks encountered on stage. However, if you are working with high-gloss finishes such as enamels or varnish you will need a very well-made roller sleeve which will minimise fibre loss. Our Premium Roller range has been chosen to reduce fibre loss to a minimum and to provide a product that will last whilst performing arduous and frequent tasks. Roller sleeves should be cleaned prior to use. For zero fibre loss have a look at the Jenny Foam Roller System [page 65].

## 9" x 13/4" PREMIUM FRAME

### Hamilton Perfection Cage Frame

A strong 5-wire cage frame with a coated wooden handle for extra durability and comfort. For use with screw-fit extension poles for secure locking. This is an excellent quality roller frame at a good price. For hollow handle frames which use broomsticks see above ↑.

**NEW**

New secure locking mechanism

**Purdy Power Lock Extension Poles** Purdy are always improving their extension poles. Now they've replaced the metal claw and ratchet with a simple and secure locking mechanism that gives you a custom length adjustment. They still have the spigot thread but have added a quick connect spring lock which means they work with any frame. A lighter more balanced design for less arm fatigue. The same strong fibreglass pole reduces "whip" but the aluminium extension is now faceted. They've improved the grip and made the handle longer and grooved for a non-slip effect. I hope you're not in the habit of bashing into walls but if you are the poles have a new shock absorbing base. We supply a cone spigot for hollow roller handles.

Purdy Power Lock Extension Pole	weight	code	price
