

SCENIC FABRICS

Flints range of fabrics has been increased. There are special prices for the purchase of whole rolls and also a section for made up cloths. The following abbreviations are commonly used to denote the fire ratings.

NDFR = Non-durably flame retardant.

These fabrics will need retreating if they get wet or are washed.

DFR = Durably flame retardant.

These fabrics will withstand several cleanings.

NotFR = Not fire retardant. These fabrics have not been treated.

CANVAS AND CALICO

Super Scenic Flax 360g/m² NDFR Bleached white. This is the standard material for covering open framed timber flats prior to painting. Recommended glues include: warm size and Clam 2 or use

Sheppy M155 if gluing large areas to plywood.

Super Scenic Flax 360g/m ²	code	per m	per 50m bolt
width: 2.44m [8']	PRO509	£13.76	£619.00
1.83m [6']	PRO505	DISCONTINUED	

Cotton Scene Canvas 300g/m² NDFR Natural. A wider but lighter weight canvas ideal for covering plywood. It can be subjected to more wear and abuse than calico could withstand. Recommended glues include: Sheppy M155, FlintBond and Clam 2.

Cotton Scene Canvas 300g/m ²	code	per m	per roll
width: 2.66m [9']	PRO520	£7.60	approx 50m metre price less 10%

Calico 190/200g/m² NDFR Natural colour. A good economical lightweight material for covering plywood clad flats. Calico, being rather lightweight, will not disguise poor joints between ply sheets which may need filling [see page 1.39 for suitable fillers]. If the surface is very poor, cotton canvas may be a better choice. Recommended glues include Sheppy M155, FlintBond and Clam 2.

Calico 190/200g/m ²	code	per m	per roll
width: 2.48m	PRO5069	£3.85	approx 50m metre price less 10%

Muslin 50g/m² NDFR White. A very light material typically used for scriming over polystyrene carvings. Recommended glues include: FlintBond and Sheppy M155.

Muslin 50g/m ²	code	per m	per roll
width: 1.22m [4']	PRO504	£1.59	approx 100m metre price less 10%

This page was updated 12/01/12

HESSIAN AND SCRIMS

Jute Scrim 85g/m² Not FR Natural colour. An open weave jute scrim normally used to reinforce plaster waste moulds but could be used to reinforce and add texture to large scale polystyrene carvings. Recommended glues include Sheppy M155, and FlintBond. Picture shows jute scrim over a canvas background.

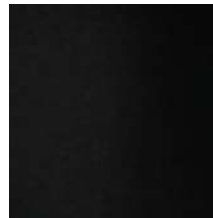

Scrim85g/m ²	code	per m	per roll
width: 910mm [3']	PRO510	£0.45	approx 200m metre price less 10%

Hessian NDFR. Natural colour. A fire retardant hessian which can be used for its decorative effect or as a tough economical scrim. It is occasionally used as a backing material to protect black serge flats. Recommended glues include: Sheppy M155, and FlintBond.

Hessian	code	per m	per roll
width: 1.83m [6']	PRO501	£4.36	approx 50m metre price less 10%

BLACK MATERIALS

Super Wool Serge 500/525g/m² DFR Black. Wool serge provides the best material for masking. This heavy weight material is durably fire retardant and has less sheen than velour. Perfect for covering masking legs and borders or for making tabs.

Serge is not normally glued to flats but just folded back on itself and stapled. If glue is needed around profiled edges we recommend Flints Cyclorama Glue used dry with a little PVA or Copydex on the edges. If wing flats are being used to mask lanterns it may be necessary to double cover in Bolton and then serge.

Super Wool Serge 500/525g/m ²	code	per m	per bolt
width: 1.5m [5']	PRO508	£9.95	approx 40-45m metre price less 10%

Bolton Twill NDFR Black A more economical masking material than serge. Also useful as a protective black backing to increase the density of serged masking flats which may otherwise bleed light from nearby lamps.

NDFR Black	width	code	per m	per roll
	1220mm (4')	PRO500	£4.12	approx 50m metre price less 10%

EXHIBITION DISPLAY MATERIALS

Black [B]	White [W]	Shell [S]	Lilac [L]
Darkness [D]	Post Office Red [P]	Mid Brunswick [G]	Amethyst [A]
Crimson [CR]	Bright Orange [O]	Corvette [C]	Process Blue [PB]
Blue Blood [BB]	Dock Green [DG]	Blue Petal [BP]	

See our website for Brushed Nylon

Display Felt NDFR BS5867 part 2 and BS476 Part 7. Felt provides an excellent surface for exhibition displays and conference work. It is not as durable as Serge or Bolton so it is rarely used in theatre scenery. Flints can supply display felt in other colours to order.

Display Felt	width	code	per m	per 60m roll
	1829mm (6')	PRO503XX	£8.98	£378.00

Display PVC Flameproof to BS1763 table 2 for products tested to BS2782 part 1. This product is supplied kiss laminated, once pulled apart reveals a glossy surface. Can be used showing either gloss or matt. For a perfect finish stretch it over foam lining [see below]. Colour card available. Visit flints.co.uk to see the range of colours.

NOTE: A 15m roll comes as 2 x 15m strips, once separated will total 30m.
If you bought 1m you would get 2 x 1m lengths, 5m would give you 2 x 5m lengths etc

Display PVC	width	code	per m	per 15m roll
Colours/Metallics	1300mm (4'2")	PRODPVCXXX	£9.54	£130.80

Foam Lining 2mm thick grey foam lining can be used under display felt and display PVC to provide a super smooth surface. It covers minor discrepancies in ply claddings and it gently rounds off edges.

Foam Lining	width	code	per m	per 50m roll
	1220mm (4')	PRODF06	£2.38	£105.00

SELF ADHESIVE VINYL

new

White Plain Black Plain Red Gloss

Patifix (Fablon Replacement)

As Fablon is no longer available we are now stocking Patifix which is a high quality heavy duty self adhesive decorative vinyl made using non-toxic material and a special glue. Patifix is greatly versatile and is ideal for set dressing, covering table tops and display work. Rolls are 450mm wide x 15m. Wt 2kg

Patifix	colour	code	15m roll
	White	PRO101005	£28.80
	Black	PRO101000	£28.80

FROST FILM

new size

Frost Film (Purfrost)

Self adhesive clear frosted films for obscuring windows. To apply, wet the adhesive side with soapy water, apply to the window, and squeegee out any bubbles from the centre outwards.

Purfrost	code	per roll
2m x 1m wide (in box)	PROPURL21	£16.50
50m x 1.22m wide (in roll)	PROPURL501	£248.50

See also Frost Spray on page 1.26 and frost varnish on page 1.31.

Rosco Designer Products

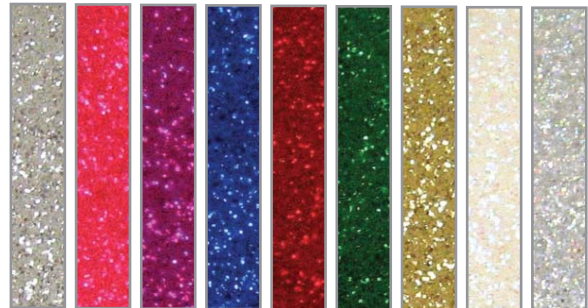

We can't do justice to these products in our catalogue with the photos that we have but we do have swatch books and samples that we will happily send to you.

ROSCO GLAMÉ

Glamé Rosco Glamé is a highly decorative material which reflects the light beautifully. It is widely used in clubs, theatres and for special events. Finely woven from durable light-weight self extinguishing plastic film, the range has now been expanded to include iridescents and diffractions.

Glamé	code	per 1.22x9.14m roll

MIRRORS

Mirrors A variety of reflective surfaces in a metallised plastic format. Although the rigid mirror is certainly thicker than the thin mirror it is not exactly rigid - which is how we can sell it by the roll!

We would recommend Display Mount to glue smaller areas and Flints Cyclorama Glue [page 1.77] for larger areas. Care must be taken to ensure that the Cyclorama glue surface is smooth before applying the mirror. Rolling the wet glue with a damp short hair roller will assist. Please ask for a swatch book.

Mirrors	code	roll size	price	
Flexible Mirror	ROS390602	1.22m x 9.15m	£63.50	
Rigid Gold	ROS393002	1.35m x 9.15m	£97.00

Silver	ROS3932X	£155.00	£385.00	£1518.00
		[-]	[1]	[2]

Silver Shrink Mirror This is a lightweight metallised plastic laminate which will create stunning mirror panels when correctly stretched. The mirror must be securely fixed to a rigid frame. We recommend a 3x1 mortise and tenon flat frame with an extra bevelled piece of timber glued and pinned to the face of the frame to

raise the mirror clear. Care should be taken to carefully remove the aris on the bevel. Cover the bevel with a continuous run of gaffer tape to further soften the corner. When stretching the mirror apply small tabs of gaffer tape before stapling through into the wood on the side of the frame. Fix the centre of the long edge first then stretch this edge to the corners and then centre repeatedly until the staples are about 100mm apart. Then run a continuous run of gaffer tape over the mirror and staple every 25mm down the long edge. Stretch the other sides using the same technique but only finally gaffer once you are happy that there are no significant wrinkles. Ideally use a propane space heater and walk the flat frame past slowly about 250mm from the machine. Don't stop! Keep moving the flat until the scrim is stretched tight providing a perfect mirror finish. Heating can be accomplished with ordinary heat gun but care must be taken to avoid scorching.

Silver Shrink Mirror	code	roll [1.37mx9.15m]
Silver Scrim	ROS3909	£78.00

For Rosco Slit Drapes see page 1.24.

SHIMMERSCRIM

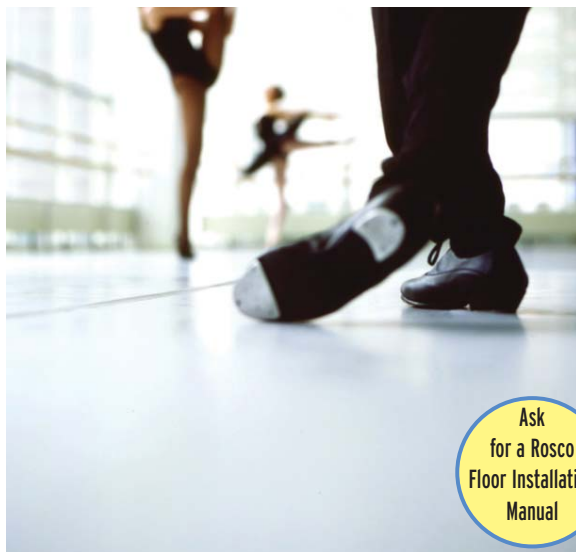

Shimmerscrim is a unique combination of thread and plastic film woven into a theatrical fabric without peer. This self-extinguishing fabric may be used for traditional scrim effects or as a shimmering, airy drape. It has a selvedge edge for easy sewing. Roll measures 1.22m x 9.15m.

DANCE FLOOR & ACCESSORIES

ROSCO DANCE FLOORS

Ask for a Rosco Floor Installation Manual

Flints have stocked Rosco's famous dance floors for over 20 years, here are just four of the most popular Rosco floors we sell. Contact us for samples and a full colour brochure.

Rosco Dance Floor The portable, durable floor for ballet, jazz and modern dance. Manufactured from 100% vinyl, Roscofloors won't crack, separate or fracture, and are self sealing if punctured. The matt, non-skid finish is designed for the control required by dancers and the matt non-reflective finish helps prevent distracting reflected light. Weighs only 1.78kg per sq metre, ideal for touring dance companies. All Roscofloors are two-sided allowing for equal wear on both surfaces. 1.3mm thick. Max roll length 40m.

Weight 2.85kg per linear metre.
Use for: Modern, Jazz, Ballet.

Rosco Dance Floor [1.6m wide]	code	per m
Black/Grey	ROS872019	£21.70
Black/White	ROS872319	£21.70

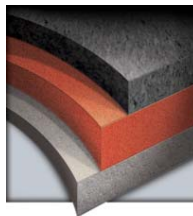

ENCORE FLOORING

Encore Sprung Timber Floors Exceptional real hardwood design combines form and function. Encore is the revolutionary "click & go" transportable hardwood floor with an integrated sprung subfloor. Recommended for virtually all activities including Ballet, tap, jazz, modern, ballroom and multi-purpose use.

- ✓ No adhesive, screws or nails needed to install the floor.
- ✓ Installs directly over concrete slab with vapour barrier.
- ✓ Transitional edging available.
- ✓ Life expectancy 10 - 15 years.
- ✓ Guaranteed 7 years against wear.
- ✓ Installation can be permanent, semi permanent or short term.

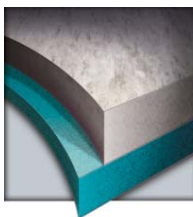

This page was updated 04/04/11

Dance Floor - High Gloss Black A lightweight but durable 1.8mm thick floor can be rolled and unrolled without cracking and is self sealing if punctured. The non skid finish is designed for the controlled slip favoured by dancers. 1.4m width.

Weight 2.52kg per linear metre.
Use for: Tap, Modern, Jazz, Hip Hop.

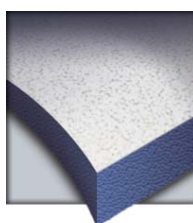

Dance Floor - High Gloss Black	code	per m
Black Gloss	ROS877009	£29.00

Roscolem A very tough and durable, slip resistant covering that is ideal for almost every form of dance including ballet and tap. 2.5mm thick. Suitable for permanent installation.
Special Order Floor Only

Weight per linear metre 6.02kg.
Use for: Tap, Modern, Jazz, Hip Hop.

Roscolem [2m wide]	code	per [32m]
Classic Black	ROS87812219	£1930.00
Classic Grey	ROS87813519	£1930.00

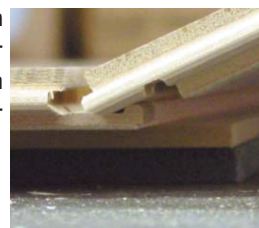

Rosco Adagio Adagio is a contract quality floor ideal for dance or general use. It is made of heavy duty dimensionally stable slip resistant vinyl with a non reflective surface. It is supple enough to lay semi permanently. 1.5mm thick.

Weight per linear metre 3.65kg. Max roll length 31m.
Use for: Tap, Modern, Jazz, Ballet, Ballroom.

Rosco Adagio [1.6m wide]	code	per m
Black	ROS87862214	£27.50
Grey	ROS87863514	£27.50

DIN Rating 18032.2, vertical deformation 3.2mm [min 2.3mm], Force reduction 63% [min 50%], behaviour under rolling load: Pass, sliding properties 0.4 [0.4-0.6].

Panel size: 188mm wide x 1,127mm long x 31mm thick. 2.186kg per panel. The transition pieces have a 101mm wide ramp up from floor height.

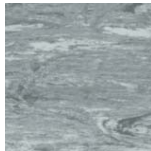

Encore	code	per piece	per 225 pcs
Panel	SSESTF	£18.70	£3,199.50
Transition Piece 1220mm	SSESTFT	£19.00	

STAGESTEP DANCE FLOOR

Flints are proud to announce that we are now stocking a range of Stagestep's dance floor materials. Stagestep are one of America's leading suppliers of dance floor, understanding the needs of flooring for the Performing Arts based on 35 years of experience.

Great for tap!

Timestep The ultimate multi-purpose floor ideally suited for any movement activity including heavy duty touring and permanent flooring for studios. Can handle heavy scenery and props. Surface can be treated for differing degrees of non-slip. Recommended for Ballet, tap, theatrical, jazz, modern and Spanish dance; virtually any movement activity. Choose marbled grey to disguise scuff marking.

- ✓ 2m wide, 2mm thick [homogeneous wear layer].
- ✓ Heavy duty.
- ✓ Life expectancy up to 15 years.
- ✓ Guaranteed 7 years against wear.
- ✓ Normally used for touring applications although suitable for permanent installation.

Don't forget to buy some ReUselt. See overleaf.

Fire rating: EN13501 - 1 (Bf1 - S1). EN ISO 9239 - 1 28kw/m2 EN ISO 11925 - 2 PASS, ASTM E648 - Class 1. Static load 125lbs/sq in.

Weight per linear metre 4.96kg

Timestep [2m wide]	code	per m	per 20m roll
Black	SSTSB	£35.00	£600.00
Marbled grey	SSTSMG	£35.00	£600.00

Cold Weather

Dance floors are sensitive to temperature and can become stiff and brittle in very cold conditions. Allow your dance floor to warm up to room temperature (13-26C) before use. Once the flooring is rolled out it should be allowed to acclimatise to the highest temperature the room will reach during the performance before taping.

Our best selling floor!

Super Bravo Classic New and improved reversible, lightweight, portable flooring. Now in wider

widths and heavy duty wear surfaces. A fibreglass lining improves stability and offers better lie-flat. Superior work surface for jazz, modern, ballet, and other movement activities. Not recommended for tap.

They are all 2m wide!

- ✓ 2m wide, 1.6mm thick.
- ✓ Fibreglass lining provides a stable floor which lies flat.
- ✓ Two layers of 100% virgin PVC with fibreglass lining between.
- ✓ No fillers.
- ✓ Life expectancy up to 10 years.
- ✓ Guaranteed 5 years against wear.
- ✓ Normally used for semi permanent touring applications although also suitable for permanent installation.

Fire rating: NFP 92-512 (M3) EN 13501 - 1 (Cf1 - S1). Static load 85lbs per sq inch.

Weight per linear metre 3.97kg

Double Sided Tapes	width	code	per 50m roll
Expo Tack	50mm	TAP064	£9.30

One of our favourite new products!

ReUseIt The revolutionary way to install flooring! Now you can install virtually any floor surface over any existing sub-floor without messy adhesives, or having to hire expensive flooring

contractors. A semi-permanent installation with permanent performance and feel! The Re-Use-It system gives you all the benefits of a permanent installation with the ease of a semi-permanent installation without the use of top tape or the hassle of resetting your floor every two years. Yet when you need to remove the floor you simply peel it up and take it away. Simply purchase new supply of Re-Use-It and install at your new location. Used Re-Use-It can be removed from the sub-floor and thrown away. You can install it yourself and it's idiot proof.

ReUseIt	code	per roll
Full roll 1m wide x 25m	SSRU1000	£99.00
Full roll 50mm x 25m	SSRU100	£15.75

STORAGE

Dance Floor Trolleys
 These trolley are made to order and are designed to either be permanently floor mounted or bolted to a wheeled Steeldeck type platform. They hold 6 rolls of floor up to 30m long. Available in 2 sizes. Painted black.

2m x 1m base (takes floors up to 1.7m wide)
 2.44m x 1.22m base (takes floors up to 2.2m wide).

Dance Floor Trolleys	code	price
2m x 1m base area	FHS250	£POA
2.44m x 1.22m base area	FHS251	£POA

To lay the floor you'll need three people!

- 1) Clean the floor thoroughly so it is dust free and smooth.
- 2) Unroll the vinyl face down [adhesive up] and peel off the backing.
- 3) With one person at each end, turn the vinyl over. Hold it off the floor.
- 4) Let the middle of the length touch the floor. The third person uses the rubber squeegee  from the centre and works outward to expel any air bubbles.
- 5) Overlap the next strip by 25mm. Double up in high wear areas.

HOUSEKEEPING

Magnetic Sweepers This is a neat wheeled magnetic sweeper with a telescopic handle capable of collecting up to 9kg of magnetic items. Ideal for collecting tacks after stage cloths have been changed. Use it around the workshop to recycle or sort out dropped screws and nails. Run it over the stage after the fit up to ensure nuts, nails, washers, swarf and filings do not cause damage to scenery tracks or equipment such as solenoids as well as safeguarding against injury to stage staff, actors or dancers feet. A great value piece of stage equipment.

Magnetic Sweeper	code	price
	TOLMPMD4433	£29.95

Mops The handle includes the bracket to hold the head. There is some debate as to which head to choose. The twine one is natural and the PY one is artificial. Rumour has it that the artificial one is more absorbent but we haven't conducted any experiments and nor do we intend to.

SLIP CONTROL

Best
Seller!

Slip Nomor 2000 - the liquid rosin A non slip solution that adds a slip resistant surface to all floor surfaces, including wood, vinyl, tile and lino. Widely used by theatre, opera and dance companies. The perfect substitute for rosin [which is not recommended on vinyl floors]. It will not damage any surface. You can control the degree of non-slip simply by adding water. Dilute ten times for the usual mix. One pot will cover approximately 900 m² once diluted.

Slip Nomor 2000	code	3.79L
	SLIP2000	£59.90

Proclean NS Just add Proclean NS once a week to your cleaning water and it is guaranteed to make any surface more slip resistant. Apply with a cotton mop using one bucket with the solution and the other to wring out the dirty water. Do not rinse and allow the floor to dry.

- Light soil: One part Slip Nomor Cleaner to 8 parts water.
- Medium soil: One part Slip Nomor Cleaner to 6 parts water.
- Heavy soil: One part Slip Nomor Cleaner to 4 parts water.

Slip Nomor Cleaner	code	3.79L
	SLIPROCLEAN	£57.00

Slip Nomor T Provides a temporary non-slip finish to any dance or athletics surface. It will naturally wear away while leaving behind no powder or residue. To re-apply, simply clean floor with Proclean NS and re-apply. It has never been easier! Lasts up to a week. To apply, clean and rinse floor.

Apply Slip Nomor T with no dilution. Coverage 15m²/L. Allow to dry overnight before use. Clean daily with Slip Nomor T at a dilution of 100mls to 10 litres of water.

Slip Nomor T	code	5L
	SLIPNT	£68.00

Rosin The resinous by-product of the distillation of turpentine obtained from trees. It is used by printers in the aquatinting process, occasionally by painters during the mixing of oil paints, and by violin players when in solid form. Dancers apply rosin, from rosin trays, to their shoes to improve grip.

Rosin	code	1kg	25kg
	PAT860	£6.20	£116.25
