

MADE UP CLOTHS

Top quality theatrical drapes made to your own dimensions. The prices show typical cloth sizes so that you can prepare your budget. When ordering special sizes our sales staff will ask you to fax through a confirmation to avoid any mistakes. Please allow 10-14 days for delivery. The cloths are specially made for you and so can not be returned.

Jargon Buster

In this section the following terms are used;

Legs = Tall vertical cloths used typically to form the sides of a soft proscenium arch and for masking off wing space.

Borders = Wide horizontal cloths used to form the top of a soft proscenium arch and to mask off lanterns.

Half tabs = Half of a curtain which meets in the centre.

Full tabs = A full width cloth either flown in or tracked all from one side.

Fullness = Extra cloth is sewn into the header tape to form a fuller drape appearance.

Flat cloth = A cloth with no extra fullness to form a modern plain flat effect.

Conduit pocket = A base pocket to slide conduit [not supplied] into to form a very neat bottom edge on flat cloths.

Chain pocket = A base pocket containing a chain for use on cloths with fullness or cloths on tab tracks.

Web tape top/hem sides [wtt/hs] = A strong webbing is sewn into the top of the cloth with cloth ties to connect to a tab track or flying bar [available for sale see overleaf]. The sides are hemmed.

BLACK SERGE DRAPES

Black Serge Drapes[wtt/hs]

Best quality durably fire retardant wool serge is used to construct these long lasting deep black drapes.

All the cloths can be made to your exact dimensions

CANVAS BACKCLOTHS

Scenic Flax Backcloths [wtt/hs] NDFR. Scenic flax cloths made up with horizontal seams and a conduit base pocket. Before painting these cloths be sure to carefully tack them out onto a wooden floor or paint frame to avoid shrinkage.

Scenic Backcloths	width	drop	code	each
	20'[6.09m]	11'6"[3.5m]	PROBC2012	£POA
	24'[7.31m]	15'6"[4.72m]	PROBC2416	£POA
	30'[9.14m]	19'6"[5.94m]	PROBC3020	£POA
	40'[12.19m]	23'6"[7.16m]	PROBC4024	£POA

GAUZES

Scenic Gauze Cloths [wtt/hs] NDFR. Seamless scenic gauze cloths made up with conduit base pocket. Scenic gauze is a very fine gauze which virtually disappears to the eye when the gauze is unlit while the scenery behind is lit.

Available in white, grey and black

FABRIC SUNDRIES

EYELETS

Hipkiss Eyelet Kits Ideal for the small job. These easy to use kits include the punch and die as well as the eyelets and rings. Very good value.

Eyelet Kits	content	diameter	size	code	each kit
	25	7.94mm	PP22	GEN161	£5.93
	25	9.53mm	PP24	GEN162	£6.62
	15	12.70mm	PP28	GEN168	£9.79

Loose Eyelets These loose eyelets are supplied as eye and ring. They are available electro brass, nickel plated, and epoxy black. Solid stainless eyelets can be ordered, please phone for details.

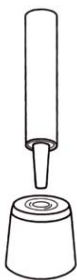

Brass Eyelets	code	per 100	per 1000
size	internal diameter	eye and ring	
20	6.7mm	GEN158X	£8.00 £72.00
22	7.94mm	GEN165X	£8.00 £72.00
25	10.31mm	GEN167X	£12.00 £108.00
27	11.9mm	GEN169X	£15.00 £135.00
30	15.87mm	GEN160X	£27.00 £243.00
32	19.05mm	GEN159X	£43.00 £387.00

Please substitute X for choice of finish, N for nickel, B for black & nothing for brass. Unfortunately size 20 Black has been discontinued. Larger sizes are available to order.

Hand Closing Tools The hand closing tool consists of a punch and die.

Hand Closing Tool	code	each
for size:		
20	GEN158HCT	£18.28
22	GEN165HCT	£19.53
25	GEN167HCT	£21.76
27	GEN169HCT	£24.35
30	GEN160HCT	£30.76
32	GEN159HCT	£35.11

Wad Punches The wad punch is for cutting the hole through the material.

Wad Punch	code	each
for size:		
20	[1/4", 6mm]	GEN158WP £9.59
22	[5/16", 8mm]	GEN165WP £9.74
25	[3/8", 9mm]	GEN167WP £9.74
27	[7/16", 11mm]	GEN169WP £11.12
30	[1/2", 14mm]	GEN160WP £13.96
32	[3/4", 19mm]	GEN159WP £15.08

Why not consider using Holdons instead of eyelets? They can be positioned onsite just where they are needed. See the facing page.

SPEEDY STITCHER

Speedy Stitcher Sewing Awl The Speedy Stitcher can be used to sew any heavy material such as leather or several layers of thick canvas. Use it to repair tents, awnings, cloths, sails, upholstery, shoes, floor cloths etc. So easy even a man can use it. Very popular.

Speedy Stitcher®	code	each
	TOLSS	£10.85

GAUZE HANKS AND RUNNERS

Gauze Hanks A very useful clip for fixing gauzes to tension wires. The clip grips the cloth by means of a small screw. The clip is then offered up to the tension wire at right angles and twisted to lock in place. The gauze can then silently slide up and down the wires whilst remaining stretched. Available in black and white. [see also pelican hooks page 2.27].

Gauze Hanks	code black	code white	each	per 50
4-5mm wire	HA144B	HA144W	£0.48	£21.75
5-6mm wire	HA244B	HA244W	£0.54	£24.00

Wire Runners Occasionally it is preferable to use pulleys to run along tensioning wires to stretch out large cloths. These quiet smooth running pulleys have removable clevis pins so they can be inserted onto already made up wires. The weight of the pulleys helps the cloth fly in. Great value.

Wire Runners	code	each	per 50
	BARSI	£3.62	£142.00

PIPE SNAPS AND MULTIFIXERS

new

Pipesnaps A new product to radically speed up rigging and demounting drapes. The Pipesnap quickly clips onto any 50mm Ø barrel. The weight of the cloth holds it securely in place. To release it, a cord can be attached to the hole on the rear of the clip. When the cord is pulled, the clip cants back and releases from the bar. The clips can be linked with a cord so that fewer hauling cords are needed to release entire cloths.

Pipesnaps	code	each	per 50
	PROPS	£4.89	£208.00

new

MultiHooks Another new product that caught our eye at a recent trade show. The tough hook swivels on the end of an adjustable and reusable heavy duty cable tie. The end of the tie releases at the neck so it can be passed through items. The hook has small holes positioned so that it can be moused off with a small cable tie, adding to its strength and security. There must be a thousand uses for MultiHooks including hooking up cables, ropes and hoses and also providing hanging hooks from bars and pipes. Made from UV resistant Nylon 66. EU Patent. Made in Japan.

MultiHooks	code	each	per 10
300mm long tie	PROBH300L	£1.54	£13.00
500mm long tie	PROBH500L	£1.86	£15.81

HOLDONS

Holdons™ These clever Swedish clips will grip any flexible material and provide a strong hanging point without the need for conventional eyelets. The more you pull, the more they grip. They provide the following advantages over eyelets:

- ✓ Banners can be rolled up flat without any eyelet damage.
- ✓ Fixing points can be selected exactly where they are needed whilst on-site.
- ✓ Excellent load capacity of 40kg for the Mini Holdon and 100kg for the Midi Holdon.
- ✓ No tools needed just push to fit.
- ✓ Completely reuseable and relocatable.
- ✓ Ideal for stretching cycloramas.

TRUSS SLEEVE

new

Transforms your truss!

TrussSleeve™ Lets face it truss is really useful stuff but perhaps you are getting slightly bored with the "Truss Look" trade show stand, then TrussSleeve is the innovative product for you. Instead of being a technical necessity, trusses become a decorative element. When lit from the inside the light is nicely diffused due to the ribbed fabric structure. TrussSleeve is inherently fireproof and can

be washed without losing its FR properties. The fabric is seamless and can be perforated allowing you to attach lights and hide cables. TrussSleeve is available in black or white. The 270mm size we stock will fit 300x300mm three chord truss loosely or 300x300mm four chord and 400x400mm three chord trusses tightly. Also available to order to fit larger trusses.

TrussSleeve™ 270mm	code	per m	per roll
Black	PROTS27B	£22.25	POA as lengths vary from 48m-57m
White	PROTS27W	£20.94	

CYC CLAMPS

new

Cyc Clamps Heavy duty cyclorama clamps ideally suited for stretching large backdrops to prevent unsightly creases. Why spoil a beautifully painted cloth for the sake of some strategic "Cyc Clamps"?

Cyc Clamps	code	each	per 50
	PRO9280	£13.91	£600.00
