

SPECIAL EFFECTS

SUGAR GLASS BREAKAWAYS

Breakaways Used within the theatre, film and television industries for stunts and special effects. The Champagne bottles are also widely used for boat launches. Breakaway bottles and glasses shatter very realistically without causing injury [please note the Dressed Champagne Bottle has a small wooden rivet and wire in the top foil dressing]. We should point out that these objects are very fragile so we prefer customers to collect from our Queens Row shop. Regrettably, we can only sell the stem glasses in special sprung boxes containing twelve glasses. Breakaways must be stored in a cool place away from direct sun or heat. The maximum window-glass sheet size is 1 m x 1 m. The sheets are packed in wooden crates to allow for transportation. Please phone for a quote.

WE CAN ONLY DESPATCH THESE GOODS AT THE CUSTOMER'S RISK.

BREAKAWAY RAW MATERIAL

Breakaway Glass This breakaway glass raw material has shatter characteristics closely resembling glass. It has excellent clarity and low surface tack when handled. Melts at 104° C. Small panes of glass [about 1 ft²] can be made relatively simply by using a sheet

of Melamine-faced plywood as a mould. Screw some 25 mm square battens onto the ply to define the size. The battens should be covered in parcel tape or polythene to stop the Breakaway Glass from sticking. Use a light release agent on the board such as Formula 6 [page 106]. Heat the Breakaway Glass in a double pot with an air gap rather than a water jacket to 104° C. Pour the melted glass to cover the board and leave it level to cool. Unscrew one or more of the battens and tap the Melamine-covered board with a hammer. The glass will slide off. We used to use squares of Underfelt [page 124] between each sheet and tour the sheets in a special wooden box. Keep the boxes cool.

SMASH PLASTIC

As used by James Bond.

SMASH! Plastic is a two-component urethane that is mixed 1A:1B by volume and cures to a water-clear solid plastic designed to break like glass on impact. The Smooth-On lab did a tremendous balancing act, formulating this product not to be too fragile, but to certainly break on impact. It truly looks and sounds like breaking glass when smashed. Broken fragments look like broken glass. SMASH!™ can be cast solid [for making window panes] or rotationally cast [for making bottles, drinking glasses, etc.] in thicknesses NO GREATER THAN 1/8" [3.2 mm]. If using this product for smashing over someone's head, make sure you observe this thickness limitation or someone could be injured. If casting solid, vacuum degassing or pressure casting are recommended to help eliminate air voids. If rotocasting, finished castings will look like frosted glass. If you want clarity in a bottle casting, better to build a core mould and cast with a 1/8" wall thickness. SMASH!™ can be pigmented to look like a beer bottle – or any other colour – using SO-Strong™ tints [please phone for information].

COBWEB EFFECTS

HIRE

Kobweb Spinner This device attaches to a standard electric drill to spin out cobweb filaments for effects purposes. To use, fill the container with Kobweb solution, crack open the lid a fraction and spin at about 2,000 rpm. The filaments should shoot out forwards [hey, check your drill is not in reverse!]

about 3 or 4 ft. You can also hire a Kobweb Spinner [page 360]. For full instructions and data sheets visit flints.co.uk.

Kobweb Solution For use in the Kobweb Spinner.

Kobweb Cleaner For use with a soft rag to remove cobweb contamination.

| Kobweb Spinner | code | price |
|-----------------------|----------------|---------|
| Kobweb Spinner | SFXCOBSPINNER | £113.83 |
| Kobweb Solution 500 g | SFXCOBFLUID | £30.40 |
| Kobweb Cleaner 500 g | SFXCOBCLEANER5 | £11.90 |

Kobweb Spray An easy to use aerosol which sprays copious amounts of cobweb filaments. Ideal for theatre, photography, and display purposes. Solvent-based, cleans up with White Spirit [page 53].

| Kobweb Spray | code | price | 12+ |

| As above but with on/off switch | SFXCC050 | £16.85 |

Candlelight

"Electricity kills darkness, candlelight illuminates it" Thoreau.

MAKE-UP AND BLOOD EFFECTS

Dracula and Flints

Flints' old shop and showroom on Queens Row was built as a scenic paint studio for Joseph Harker over 100 years ago. Joseph Harker was a good friend of Bram Stoker. The hero of Dracula, Jonathan Harker, was based on Joseph Harker. Unfortunately the building's owner is soon to turn it into Flats.

Signatures of all the famous scenic artists including Joseph Harker seen on the wall of the studio.

Dark type for venous/aged effects.

Type standard for fresh!

Pigs Might Fly [Blood] When multi-award winning special effects make-up artist, Nick Dudman, needed an ultra-realistic, fully washable, non-staining, running theatrical blood – he brewed his own. We're really amazed by how washable it is! We've also heard of blood being removed from a silk dress with damp kitchen towel and leaving no mark. Just don't dry clean. Also for use in mouth capsules, and for mouth effects.

Two types: Standard is arterial/fresh; Dark is venous/aged.

| Pigs Might Fly | size | standard code | price | dark code | price |
|----------------|--------|---------------|--------|-----------|--------|
| | 30 ml | SFX46146 | £6.25 | SFX46146D | £6.25 |

FOG FLUIDS

Rosco Fog Fluid Rosco's water-based fog fluids have been developed and proven over many years and have justly become the most widely used fog fluids in theatre, live entertainment and theme parks. Flints stocks the two most popular choices:

- ✓ Rosco Fog Fluid for thick clouds with very long hang time. Has a mild scent. The best general purpose fluid.
- ✓ Rosco Stage and Studio for fast dissipation. Best for chilled low-lying fogs.

| Rosco Fog Fluid | size | code | price |
|------------------------|------|------------|--------|
| Rosco Fog Fluid | 1 L | ROS830711 | £8.60 |
| Rosco Fog Fluid | 5 L | ROS8305125 | £36.50 |
| Rosco Stage and Studio | 1 L | ROS830011 | £8.60 |
| Rosco Stage and Studio | 5 L | ROS8300135 | £36.50 |

Showtec Fog Fluids Compatible with the Antari machines. A great value water-based fluid that produces a white fog.
