

The Stage Tool Cupboard

So much can be told about the way a stage is run simply by opening up the Stage Cupboard. Is it devoid of tools save for a jammed staple gun with the wrong size staples, or is it a treasure trove of useful gizmos to make the production run smoothly? A joy to behold! Everyone has their own idea of the perfect stage cupboard and the way it is organised reflects the colourful character of those who work on the stage.

Flints Tool Kits

We have assembled a range of tool kits to suit backstage theatre practitioners including Stage Managers, Lighting Students, Scenic Artists and Stage and Workshop Carpenters. By choosing a tool kit Flints can offer you a substantial discount. If you have a specific tool kit for new students or staff we would be delighted to give you a tailored quotation.

STAGE MANAGER KITS

Stage Manager's Kit

These kits will suit both the student setting out on a new career as well as the full-time stage or production manager.
