Preserves night vision

### Petzl Tikka Plus®<sup>2</sup>

This headlamp integrates two light sources for versatility: one white, high-output LED

(35m) and one red LED. The white LED delivers 50 lumens in maximum mode and lights up to 35m. In economic mode, it can reach a burn-time of 140 hours. The red LED provides spare lighting to preserve night vision or to become a strobe light for increased safety, for example in an urban environment, etc. The TIKKA PLUS+ can be used with lithium batteries to decrease weight or increase performance in cold weather.

Hugely popular choice!
