

TUBE AND CLAMPS

SCAFFOLDING TUBES

HIRE

Galvanised Scaffold Tube 48.3mm outside diameter tube is the industry standard for most applications, such as lighting positions, flying bars and staging leg supports. The 33.7mm outside diameter tube is used for applications where the larger tube would be inappropriate, such as shelving, racking and handrail supports. Flints are happy to cut your tubes to length to speed up your fit up. Cut lengths can sometimes speed up delivery too. We also have scaffolding tube available to hire [see page 3.77]. The full length price is for uncut full lengths. The half length prices include the cutting charge. All other lengths are charged at the per metre price plus the cutting charge. For large quantities of cut lengths please phone for a quotation.

Scaffold Tube	diam x wall thk.	code	wt per length/m	price
size 6	Full length 6.4m [21ft]	SCF030FL	16kg	£33.60
	Half length 3.2m [10ft 6"]	SCF030HL	8kg	£18.25
	Per Metre	SCF030	2.5kg	£6.13
size 8	Full length 6.4m [21ft]	SCF090FL	29.82kg	£35.50
	Half length 3.2m [10ft 6"]	SCF090HL	14.91kg	£20.90
	Per Metre	SCF090	4.66kg	£7.90
Cutting Charge	CUTS	per cut	£0.80	

HIRE

Aluminium Scaffold Tube 48.3mm outside diameter. Aluminium tube is about one third of the weight of galvanised tube. Flints are happy to cut your tubes to length to speed up your fit up. Cut lengths can sometimes speed up delivery too. We also have aluminium scaffolding tube available to hire [see page 3.77]. The full length price is for uncut full lengths. The half length prices include the cutting charge. All other lengths are charged at the per metre price plus the cutting charge. For large quantities of cut lengths please phone for a quotation.

Aluminium Scaffold Tube	diam x wall thk.	code	wt per length/m	price
size 8	Full length 6.09m [20ft]	SCF091FL	10.07kg	£51.50
	Half length 3.04m [10ft]	SCF091HL	5.035kg	£29.95
	Per Metre	SCF091	1.653kg	£11.50
Cutting Charge	CUTS	per cut	£0.80	

Black Anodised Aluminium Scaffold Tube This tube is the ideal choice for unobtrusive rigging positions and flying bars. The semi matt black finish will not catch the light like self colour aluminium tube. Aluminium is notoriously difficult to paint so for a long lasting high quality finish black anodising is the preferred method. The tube is supplied wrapped to protect it during storage. There are occasionally some small witness marks which are part of the anodising process.

Black Aluminium Tube	diameter	code	wt per length/m	price
size 8	Full length 6.09m [20ft]	SCF091BFL	10.07kg	£88.50
	Half length 3.04m [10ft]	SCF091BHL	5.035kg	£48.15
	Per Metre	SCF091B	1.653kg	£17.25
Cutting Charge	CUTS	per cut	£0.80

Scaffolding Tube Delivery Policy

Because of carrier restrictions this is a bit complicated! By using a mixture of "Send Direct", carriers, and our own vans we have come up with this policy.

Full lengths can be delivered UK Mainland for £25.00. Outside London postcodes there is a minimum quantity of five.

Cut lengths up to 3.6m can be delivered on our normal carriers and are charged as per the delivery sheet shown on page 3.80

Cut lengths over 3.6m can only be delivered to London postcodes on our van at £25.00.

If your requirements fall outside this policy we would be happy to obtain a tailored haulage quotation for you.

BLACK ENAMEL CONDUIT

Conduit Steel Conduit in a Black Enamel finish, used to add weight to the bottom of painted cloths and borders to get a neat straight edge, and to help pull out any creases in the cloths caused by rolling or folding. The advantage of steel conduit is that it is supplied with a thread cut onto each end, and by using the conduit couplers it is easy to obtain a continuous pipe to run inside the pocket on the cloth. Each length of conduit is supplied with one coupler.

Conduit	Wt per L	code	3m	per 8 lengths
20mm [3/4"]	2.6kg	SCF1003	£7.96	£6.63 each
25mm [1"]	3.3kg	SCF1023	£9.54	£8.39 each
		Conduit Coupler	code	each
		20mm [3/4"]	SCF103	£0.40
		25mm [1"]	SCF104	£0.45
		Conduit Saddle	code	each
		20mm [3/4"]	SCF105	£0.50
		25mm [1"]	SCF106	£0.61

new

Take a look at the Supertool Reamer on page 3.33!

Conduit Die Sets It is not generally necessary to have a conduit die if the sole use of the conduit is to add

weight to the base pocket of cloths. However if you are doing a small scale tour it may necessary to reduce the length of the conduit to fit the hopelessly inadequate van that they hired for you. If you are an electrician you will be needing to re-thread conduit ends all the time. We stock

two types of Conduit Die Sets. A simple two arm conduit holder complete with a 20 and 25mm die and also a Ratchet Set suitable for threading black gas or galvanized iron pipes comprising of four dieheads, two-piece tubular steel handle and compact ratchet head. The compact ratchet head is suitable for working close to walls etc. Cast iron dieheads with alloy steel dies, four chasers per head for a clean accurate thread and four waste holes for quick dispersion of swarf. Packed in blow mould carrying case and display sleeve. Contents: 16, 20, 25 and 32mm dieheads

Conduit Die Sets	code	each
20mm and 25mm conduit die set	SCFESCO	£27.00
7pce ratchet conduit die set	TOL71361	list £75.50 £59.89
Disposable deburring tool	TOLMON3020	£2.90

Conduit Cutting and Threading Service Can't be fagged to buy the right gear and do it yourself? Then we can do it for you, but it'll cost you three quid.

Conduit Cutting and re-threading	code	each
20mm and 25mm conduit	CUTCON	£3.00

For Tube Endstops see page 2.57. For Tank Traps see 2.07

OTHER TUBES

Plastic Tubes Chosen for careful rolling of painted cloths. We have made up some strong timber joiners to extend the pipes.

Plastic Tubes	code	each
4" Plastic Pipe [4m long]	SCF100PP	£45.35
Timber internal battens joins	SCF100PPJ	£15.00

Glass Fibre Tube [Clearing Sticks] These 6m long 38mm Ø lightweight but strong tubes make ideal clearing sticks. Total weight of 6m tube is just 3.3kg. Wall thickness 2.5mm. For deburring see the amazing Supertool reamer on page 3.22.

Glass Fibre Tube	code	per 6m length
6m long tube	SCF38GFT	£35.00
Delivery of above [UK Mainland]	CARRGFT	£35.00

(any quantity)

For adjustable clearing poles [Purdy Jiffyloc+Hook] see page 1.50.

SCAFFOLD CLAMPS AND TUBE FITTINGS

We stock a range of fittings to hold scaffold size tubes at any angle, to join tube end to end and to suspend tubes from flying wires.

HIRE

Swivel Coupler Use 21mm podger or 7/16 W scaffold spanner, see page 3.30-3.31.

Swivel Coupler	code	each	for 10
	SCF051	£4.60	£37.00

Half Swivel In plain finish ready to weld to your scenery. Use 21mm podger or 7/16 W scaffold spanner, see page 3.30-3.31.

Half Swivel	code	each	for 10
	SCF051H	£2.31	£19.20

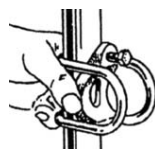

HIRE

Fixed Right Angle Coupler Use 21mm podger or 7/16 W scaffold spanner, see p3.30-3.31.

Fixed Coupler	code	each	for 10
	SCF052	£4.01	£30.00

HIRE

Rotalock Designed for use with cattle pens as there are no sharp protrusions. These fittings are ideal for auditorium structures as the smooth profile will not catch clothing etc. They also make very rigid boom arms and tighten with just one bolt. Now down in price.

We like them!

Rotalock	code	each
	SCF130	£6.75

Angled Cross Over Neater than a scaffolding clamp for permanent installations.

Cross Over	code	each
	DOUT25150	£5.59

HIRE

Joint Pin These are best on tubes in compression rather than horizontal flying bars.

Joint Pin	code	each	for 10
	SCF111	£3.02	£25.00

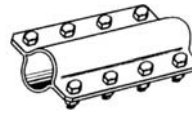

For hire prices please go to page 3.77

HIRE

Solid Tube Joiner A good choice for strong horizontal joints.

Solid Joiner	code	each
M8 Allen screws	SCF114	£11.59

External Bolt Barrel Joiner A popular and strong joiner for aluminium flying bars.

External Joiner	code	each
	SCF113	£14.61

new

Putlog Coupler Allows a tube to be fixed at right angles leaving the top of the horizontal tube clear for decking.

Putlog Coupler	code	each
	SCF117	£1.60

new

Stair Tread Coupler A dual handed fitting for fitting scaffold board treads to scaffold stringers.

Stair Tread Coupler	code	each
	SCF118	£5.00

HIRE

Adjustable Scaffold Foot Useful for levelling staging legs on uneven ground such as thrust stages landing on raked auditorium floors. Overall height 225mm.

Adjustable Feet	code	each
	SCF140	£15.00

new

Scaffold Base Plate Reduces point loading, prevents damage to floors and can be fixed in place to avoid scaffold legs being shunted out of position.

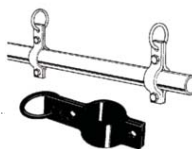

Scaffold Base Plate	code	each
	SCF119	£1.00

HIRE

Universal Clamp Endless uses for rigging barrels to ceiling saddles [page 2.59], hook clamps [pages 3.55-3.56], and wall brackets. Economical in price and hugely popular. The 48mm size is now available in black.

Universal Clamp	finish	code	price
For 48mm tube with M12 plate	BZP	DOU30400	£5.66
For 48mm tube with M12 plate	Black	DOU30404	£8.10
For 38mm tube with M8 plate	BZP	DOU30401	£5.68
For 25mm tube with M6 plate	BZP	DOU30402	£5.10

Hanging Clamps One of our most popular fittings. For full details see page 2.02

Hanging Clamp	code	each
with ring	FHS002HCR	£4.70
without ring	FHS002HC	£3.85

large size for 60.3mm diameter tube [no ring] FHS002LHC £5.50

For other tube brackets see page 2.59.

For Hook Clamps and Boom Arms see pages 3.55 - 3.56.

You can buy EVERYTHING online at flints.co.uk!

ALLEN KEY TUBE FITTINGS

This page was updated 13/04/11

Malleable iron castings with a streamlined appearance that are both extremely versatile and economical. Simple to fit as the tube slides into the socket and is firmly secured in position with an allen key operated socket screw. The standard No.8 size clamps fit regular 48.3mm scaffolding tube or aluminium pipe. The smaller No.6 size fits 33.7mm tube. Supplied galvanised. Also available powder coated - please phone for a quote.

2" x 2" square insert	2-3.2mm	GEN502	£0.51
50x25mm rectangular insert	1.25-3mm	GEN503	£0.30

WELDING ELBOWS

Welding Elbows Right angle bends in mild steel ideally suited for smooth handrail applications. May be trimmed back to achieve other angles. The two sizes listed fit size 6 scaffolding and standard size 8 scaffolding.

Welding Elbows	code	each
33.7mm [outside diam]	SCF900	£2.07
48.3mm [outside diam]	SCF904	£2.49

WELD DISCS (BLANKS)

Weld Discs [Blanks] Apart from blanking off tube ends, these discs are useful as large round feet on steel tube legs preventing floor damage and allowing small frames to stand upright prior to bolting.

Weld Discs [Blanks]	diameter	thickness	code	each
	32mm	3mm	SCF908	£0.56
	41mm	3mm	SCF910	£0.42
	60mm	5mm	SCF912	£0.77
	100mm	6mm	SCF914	£1.54

COLD GALVANISING SPRAY

Galvroid a Zinc rich spray for steel. Weathered grey protective coating to ISO 1461:1999. 99% pure zinc, content 61% cured film sacrificial coating to protect from corrosion.

Galvroid	code	each
	PATCGS1	£8.26

Ratchet Allen Key To speed up key clamp constructions, Flints have chosen this good quality 3/8" drive Teng ratchet handle which will take 1/4" and 5/16" hex sockets. Fits size 8 and size 6 key clamp fittings.

See page 3.32 for prices and other ratchet drives.

199 [Flush panel fastener] code each
size 8 [only] SCF8199 £4.43
Panel is flush with rear of tube

173M [Centre panel fastener] code each

DOUGHTY CLAMPS

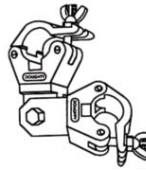

The Doughty Clamp combines strength and durability. Constructed from high tensile aluminium extrusion finished as either polished aluminium or with a satin black powder coated finish [available to order if not listed]. They fit pipes with outside diameters between 48 and 51mm. The Standard clamp will take an M12 nut or bolt head, allowing the user to create their own fixings.

Tube Joiner For quickly connecting tubes end to end.

Tube Joiner	code	price
	DOU57240	£37.20

Pivot Hinge Assembly Provides 360° rotation and 180° of lateral movement.

Tube Joiner	code	price
	DOU57250	£76.74

Female Silver Knob Provides easygrip handle, an optional extra for Doughty Clamps.

Female Silver Knob	code	price
