

HEAD TORCHES / HAND TORCHES

Petzl E+Lite®

Ultralight and very compact, the e+LITE® emergency headlamp should always be with you. Ready to use in its neat storage case, it can be stored with its batteries for 10 years in a vest or an emergency kit, etc. Its white or red, continuous or strobe lighting allows you to be seen and to signal an emergency. White close range work mode [15 lumens up to 6 m] allows you to move around easily in the dark. For emergency situations, the red LED allows you to be seen from a distance [100 m for 15 hours, or in strobe mode 100 m for 70 hours]. Locking on/off switch designed to prevent accidental operation. Resists extreme temperatures: -30 °C to +60 °C. Waterproof up to a depth of 1 m for 30 minutes, IPX7. Operates on 2 lithium CR2032 batteries [included]. Certification: Certified CE, ATEX [Ex II 3 GD Ex in IIC T6, Ex tD A22, IP 68 T85°C].

HAND TORCHES

Hand torches have greatly improved in the last decade. With reliable LED technology it is possible to incorporate powerful beams into much smaller torches. However, LED technology isn't simple. We have tested torches that completely failed after relatively short periods, some LEDs cause radio interference, others start flickering. We hope that the ones we have listed will provide you with long-lasting and impressive service. Sadly, there is no magic involved. More Lumens means more energy and a shorter battery life, although improvements in batteries is helping here. You will need to decide when you are most likely to need a torch and what for. Sometimes a dull torch is better if you need to illuminate a working drawing, script or map as it will help to preserve your night vision. If you are on event security patrol a really powerful beam will help. You need to decide if you will carry it on your belt or in your pocket? Do you really need a strobe? Hopefully, you will find your perfect torch here.
