RAPID FINELINE STAPLERS

Rapid Recycled 13 Staple Gun

A handy, lightweight, high-impact gun in a resistant plastic housing. Suitable for stapling fabrics, canvas etc. We swapped out our previous plastic economy stapler for this version as it's made from 90% recycled plastic sourced from old fridges.

These staplers are also apparently manufactured in the village of Hestra in Sweden, a village with a population of 1,306 and probably best known for a glove company of the same name that has been making gloves in Hestra by four generations of the Magnusson family. Probably not a common answer to a pub quiz trivia round but you never know.

Uses: Fineline staples series 13 [4, 6, 8 and 10 mm deep]

FLINTS STAPLERS

Flints 3-in-1 Staple Gun

This multi-functional stapler allows staples to be fired in flush, or raised by 3 mm which is perfect for attaching canvas to flats for easy removal or for temporarily fixing cables. As pictured, the housing can rotate 90° to create a powerful stapler for stapling wads of paper [up to 60 sheets] or other materials. It may obliterate smaller piles of paper which could be stapled with a desktop stapler! Uses: Arrow JT21 and Rapid Series 13.

Flints Heavy Duty 6-in-1 Staple Gun

Not only can it fire 6 different types of staples, it can do so on one of two force settings, regular or super! Since its release in 2018, we've had reports that this stapler can struggle with flat wire staples so we were tempted to rename it the 5 in 1 staple gun.

Instead we now offer this gun at a greatly reduced price as it's still a great tool. On the occasion this staple gun does not meet your expectations please do get in touch for a replacement or refund! Uses: All the staples we sell! [JT21, T50, 140, 13] Can also be used with Arrow T25, BN1810 and Rapid 53, 140, 13, 36, 8, 9.

OK so these boards really don't look like anything impressive, BUT what they represent is very important. These are boards we made in house when testing out staple guns – this is just one tiny example of the testing and sampling work we do on all products before they can be listed in our catalogue. Might seem like overkill, but we take it very seriously, and want to ensure we are always giving you our honest opinions on products, and that they stand up to the mark! When you consider that we have over 850 new product lines that have gone into this edition of the catalogue, it shows you just how much work goes on behind the scenes!

Sadly things sometimes do go wrong, and we know there have been a few problems with our 6-in-1 staple guns, which is why we have dramatically reduced the price! Of course, if you get a faulty one, we'll replace it hassle free. All part of the Flints Service.
